Research in the Decision Sciences for the Service Economy

2015-08-19

the papers in this volume present state of the art quantitative and qualitative research empirical findings best practices and conceptual models to support better decision making throughout any service organization selected as the best work presented at the 2015 annual conference of the european regional subdivision of the decision sciences institute edsi they offer an invaluable cross disciplinary perspective that will be relevant to all facets of service production including organization management operations information systems marketing hr supply chains and beyond papers in this volume offer powerful new pathways for innovation and optimization in global service network structures and inter organizational relationships the contributors also illuminate the successful management of the complex combinations of both explicit and tacit knowledge involved in service creation reflecting new insights into behaviors linked to customer attitudes and

service perceptions the papers collected here will be valuable to wide audiences of faculty researchers and students in diverse programs covering operations and supply chain management of service industry companies and or the effective delivery of services and for others interested in the frontiers of decision science

A Midterm Assessment of Implementation of the Decadal Survey on Life and Physical Sciences Research at NASA

2018-06-09

the 2011 national research council decadal survey on biological and physical sciences in space recapturing a future for space exploration life and physical sciences research for a new era was written during a critical period in the evolution of science in support of space exploration the research agenda in space life and physical sciences had been significantly descoped during the programmatic adjustments of the vision for space exploration in 2005 and this occurred in the same era as the international space station iss assembly was nearing completion in 2011 out of that period of change recapturing a future for space exploration presented a cogent argument for the critical need for space life and physical sciences both for enabling and expanding the exploration capabilities of nasa as well as for contributing unique science in many fields that can be enabled by access to the spaceflight environment since the 2011 publication of the decadal survey nasa has seen tremendous change including the retirement of the space shuttle program and the maturation of the iss nasa formation of the division of space life and physical

sciences research and applications provided renewed focus on the research of the decadal survey nasa has modestly regrown some of the budget of space life and physical sciences within the agency and engaged the u s science community outside nasa to join in this research in addition nasa has collaborated with the international space science community this midterm assessment reviews nasa s progress since the 2011 decadal survey in order to evaluate the high priority research identified in the decadal survey in light of future human mars exploration it makes recommendations on science priorities specifically those priorities that best enable deep space exploration

Renewable Electricity - Generation Technologies

2008

the european union s eu common energy policy commits the eu to generating 20 per cent of total energy consumption from renewables by 2020 the european commission proposed national renewable energy targets for each member state and it was suggested that 15 per cent of uk energy be derived from renewables by 2020

Midterm Campaigning and the Modern Presidency

2018-07-11

providing a unique resource for readers seeking to understand the relationship

between presidents parties and congress this book offers a new explanation of the motivations strategies and impacts of presidential midterm campaigns congress has been shaped by an unlikely force presidential involvement in midterm campaigning this book argues that midterm campaigning is a presidential trojan horse and that in undertaking it presidents have brought their parties to heel indebted individual representatives and senators to them and broken the ability of congress to effectively check the executive office midterm campaigning and the modern presidency looks at why presidential midterm campaigning emerged during the post war period and why it did not emerge sooner it then describes how presidents have shrewdly coordinated their midterm actions to not only shore up their immediate needs but also to remake in their own image both their party and congress as a whole not merely about any particular election or candidate the book shows that presidential midterm campaigning has a lasting impact on the behavior of congress and on the future course of american political affairs

The Role of Public Administration in Building a Harmonious Society

2006

this volume brings together a collection of papers presented at the annual conference of the network of asia pacific schools and institutes of public administration and governance napsipag the publication reflects the diversity of grounded voices to be found in the region while the approaches are different a

distinguishing feature is the depth of local knowledge they exhibit and the manner in which innovation from within the asia and pacific region is highlighted

horses in midstream breaks the mold of midterm election literature by focusing on the consequences of midterm elections rather than on the causes of the anti administration pattern of those elections the book concludes that the midterm pattern has two primary consequences it stymies the president and provides an opportunity for the revitalization of the opposition party and that numerical losses by the president's party is really only a small part of the equation consequently midterm elections can be considered an additional check in the u s political system acting as a mechanism that helps to assure rough two party balance in examining the historical results from midterm elections dating back to 1894 and extending to the surprising result of 1994 and 1998 busch has uncovered seven consistent ways in which the president and his party are harmed by midterm elections these elections unfavorably alter the composition of congress both between the parties and within the president's own party they deprive the president of the plebiscitary power derived from his original electoral mandate they give an intangible sense of momentum to the opposition party leading to renewed opportunities for the opposition to put forward new leaders and to develop winning issues they exacerbate splits within the president's own party and they provide the opposition party with expanded party building opportunities at the state level busch also places the midterm elections into four categories preparatory midterms which contribute to a subsequent change in party control of the presidency calibrating midterms in which voters slow but do not reverse extraordinary periods of presidentially driven change normal midterms when midterm elections stymie the president without contributing to a white house takeover and the rare creative exceptions when an administration escapes the midterm curse at the polls and find themselves invigorated rather than weakened

busch's new approach to midterm elections his well supported conclusions and his clear consistent style will certainly be of interest to political scientists and will translate well to the classroom

Horses In Midstream

2013-05-01

this book provides an interpretation of sport in contemporary south africa through an historical account of the evolution and social ramifications of sport in the

twentieth century it comprises chapters which trace the growth of sports such as football cricket surfing boxing and rugby and considers their relationship to aspects of racial identity masculinity femininity political and social development in the country the book also draws out the wider geo political significance of south african sport placing it in the context of the development of sport both elsewhere on the african continent and internationally the history of sport has seen significant international growth over the past few decades for the most part however the history of sport in africa has remained largely untraced by detailing the way in which sport s development in south africa overlapped with major socio political processes on the wider african continent this volume seeks to narrow the gap this book was previously published as a special issue of the international journal of the history of sport
