mesmerizing they were profoundly different young and old black and white a muslim and a jew ali barely literate and cosell an editor of his university s law review yet they had in common forces that made them unforgettable both were above all performers who covered up their deep personal insecurities by demanding loudly and often public acclaim theirs was an extraordinary alliance that produced drama comedy controversy and a mutual respect that helped shape both men s lives dave kindred uniquely equipped to tell the ali cosell story after a decades long intimate working relationship with both men re creates their unlikely connection in ways never before attempted from their first meeting in 1962 through ali s controversial conversion to islam and refusal to be inducted into the u s army the right for him to do both was publicly defended by cosell kindred explores both the heroics that created the men s upward trajectories and the demons that brought them to sadness in their later lives kindred draws on his experiences with ali and cosell fresh reporting and interviews with scores of key personalities including the families of both in the process kindred breaks new ground in our understanding of these two unique men the book presents ali not as a mythological character but as a man in whole and it shows cosell not in caricature but in faithful scale with vivid scenes poignant dialogue and new interpretations of historical events this is a biography that is novelistically engrossing a richly evocative portrait of the friendship that shaped two giants and changed need for new narratives and paradigms in diverging time david carvounas supports this assertion through detailed expository and diagnostic readings of kant hegel and marx he focuses on their contribution to our understanding of modernity as an epochal shift in the relationship between past and future recasting the significance of the past and future of the modern present despite their different solutions to the problem of temporal coordination they urged the modern world to look not to the past but to the newly opened future for continuity meaning and purpose this book not only
