a new comprehensive biography of this hugely important christian martyr 60 years after his execution at the hands of the nazis bonhoeffer has gained a position as one of the most prominent christian martyrs of the

last century his influence is so widespread that even 60 years after his execution by the nazis bonhoeffer s life and work are still the subject of fresh and lively discussion as a pastor and theologian bonhoeffer decided to resist the nazis in germany but his resistance was not solely theological he played a key leadership role in the confessing church a major source of christian opposition to hitler and his anti semitism and was principal of the secret seminary at finkenwalde in pomerania it was here that he developed his theological visions of radical discipleship and communal life in 1938 he joined the wehrmacht s abwehr the german military intelligence office in order to seek international support for the plot against hitler following his inner calling and conscience meant that bonhoeffer was continually forced to make decisions that separated him from his family friends and colleagues and which ultimately led to his martyrdom in flossenbürg concentration camp less than a month before the second world war came to an end his letters and papers from prison movingly express the development of some of the most provocative and fascinating ideas of 20th century theology sixty years after bonhoeffer s death and forty years after the publication of eberhard bethge s ground breaking biography ferdinand schlingensiepen offers a definitive new book on bonhoeffer for a new generation of readers schlingensiepen takes into account documents that have only been made accessible during the last few years such as the letters between bonhoeffer and his fiancée maria von wedemeyer schlingensiepen s careful narrative brings to life the historical events as well as displaying the theological development of one of the most creative thinkers of the 20th century who was to become one of its most tragic martyrs

a synthesis of legal political and social history to show how the post founding generations were forced to rethink and substantially revise the u s constitutional vision between 1815 and 1861 american constitutional law and politics underwent a profound transformation these decades of the interbellum constitution were a foundational period of both constitutional crisis and creativity the interbellum constitution was a set of widely shared legal and political principles combined with a thoroughgoing commitment to investing those principles with meaning through debate each of these shared principles commerce concurrent power and jurisdictional multiplicity concerned what we now call federalism meaning that they pertain to the relationships among multiple levels of government with varying degrees of autonomy alison lacroix argues however that there existed many more federalisms in the early nineteenth century than today s constitutional debates admit as lacroix shows this was a period of intense rethinking of the very basis of the u s national model a problem debated everywhere from newspapers and statehouses to local pubs and pulpits ultimately leading both to civil war and to a new more unified constitutional vision this book is the first that synthesizes the legal political and social history of the early nineteenth century to show how deeply these constitutional questions dominated the discourse of the time

though the focus is on british novelists sabiston s discussion of the anglo american connections in the factory novels of elizabeth gaskell and the slavery writings of harriet beecher stowe has particular relevance for its demonstration of how the move from the private to the public sphere enables and even compels the blurring of national and ethnic boundaries what emerges is a compelling argument for the relevance of these novelists to the emergence in our own time of hitherto silenced female voices around the globe book jacket
