outline of the operations of the british troops in scinde and affghanistan is a detailed account of british military operations in the first anglo afghan war 1839 42 and of the invasion in 1839 by the british east india company of the province of sind in present day pakistan the author george buist 1804 60 was editor of the bombay times and the book is heavily drawn from dispatches that appeared in that newspaper and in another indian publication the monthly times buist was born in scotland and educated at saint andrews university and the university of edinburgh in addition to his newspaper work he was an accomplished amateur scientist who collected scientific data in various fields and served as secretary to the geographical society of bombay and the agri horticultural society of western india buist was highly critical of british policy both in this book and in the editorial line taken by the bombay times he writes that the anglo afghan war began as a war of aggression turned into struggle for our own defence and was transformed finally into a war of vengeance he opposed the policy of retaliation against the afghans after the kabul massacres of 1842 and argued that the war was both ruinously expensive and inimical to british interests the british objective in starting the war was to drive the ruler of afghanistan dost mohammad khan from power and to replace him with shah shuja who was thought to be more favorable to british interests and less susceptible to russian pressure or blandishment about this view buist writes the more the matter is examined the more difficult it is to discover by what process of self delusion it was that the projectors or advocates of the dooranee durrani alliance could for a moment persuade themselves that the restoration and maintenance of the shah shoojah shuja' on the throne could conduce to any one of the ends we professed ourselves anxious to attain reprint of the original first published in 1873 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost no book is provoking a more animated discussion among students of the social sciences at the present time than h g wells outline of history the author s task as he himself sets it is to tell truly and clearly in one continuous narrative the whole story of life and mankind so far as it is known today but while these two volumes are plainly for the general reader rather than for the special student of history it does not follow that they contain nothing beyond an endless parade of names and dates their chief value indeed is in the author s interpretation of what he writes about events are appraised and men are weighed in the balance as he goes along historians in general will not agree with some of these appraisals nor will they credit mr wells with an approach to infallibility in his judgment of the men who flit across his pages but his estimates of the relative value of facts and forces can scarcely be brushed aside because they do not command general indorsement on some matters unhappily mr wells has allowed his iconoclastic proclivities to run away with him napoleon i for example cannot be disposed of as a second grade pestilence because he killed fewer people than the influenza epidemic of 1918 ii p 384 nor will the world believe so long as it retains its senses that napoleon iii was a much more intelligent man than his uncle ii p 438 even the pinchbeck himself would have rebuked this insinuation but when all is said these two stout volumes embody a remarkable achievement they contain astonishingly few historical inaccuracies of the customary type the author s advisers and a competent galaxy of scholars they are have kept him clear of the pitfalls the style is terse and forceful mr wells certainly has the gift of cogent exposition an outline of humor by various authors published by good press good press publishes a wide range of titles that encompasses every genre from well known classics literary fiction and non
