a study of lorca s poetic trajectory this volume is one of few surveys in english of the whole of lorca s poetry and the first to concentrate entirely on self consciousness a subject which it sees as central to our understanding of the work of a poet writing in the most self conscious of literary periods the modernist era focusing on poems which have the poet art and creativity as their subject or which draw attention at a formal level to issues of practice or style it shows how these poems speak for or against contemporary aesthetic doctrine thereby revealing the extent of the poet s allegiance to it and the positions he takes up in the process of making his own mark in the literary field in so doing it charts the development of a poet whose self conscious engagement with his art offers an explanation as to why his work in the space of little more than a decade and a half should have been so singular and diverse federico bonaddio lectures in modern spanish studies at king s college london

Collected Plays [of] Federico García Lorca

1976

in 1926 as a young man of 28 with a growing reputation as an oral poet federico garcia lorca 1898 1936 toyed with the idea of proving his worth in writing by bringing out a boxed set of three volumes of his verse because the suites canciones and the poema del cante jondo eventually came out singly in the case of the suites posthumously readers have not always realised that they formed a single body of work one which lorca himself was surprised to note has una rarísima unidad an odd unity of aims and accomplishment this is poetry which takes up the question of desire in progressively depersonalizing ways and shows modernism coming into being through renunciation by cutting away the personal and the taboo lorca created a poetry that like no other in europe stood between the avant garde and oral traditions making their contradictions his truth roberta ann quance is senior lecturer in spanish at queen s university belfast

during the years since his death federico garcía lorca spain's best known twentieth century poet and playwright has generally been considered a writer of tragedy three of his major plays are fatalistic stories of suffering and death and his poetry is filled with dread yet most of lorca's dramatic production consists of comedies and farces throughout his poetry and prose as well as in his most somber plays runs an undercurrent of humor dark irony and satire that is in no way contradictory to his tragic view of life on the contrary as virginia higinbotham demonstrates through humor lorca defines intensifies and tries to come to terms with what he sees as the essentially hopeless condition of humankind although lorca's comic moments and techniques have been discussed in isolated articles the importance of humor has largely been ignored in the fundamental studies of his work higinbotham is concerned with lorca's total output lyric poetry tragicomedies and farces avant garde prose and plays puppet farces and master plays she describes lorca's place in the mainstream of the spanish theater and shows his relationship to some relevant non spanish dramatists furthermore she discusses ways in which lorca's work anticipates the modern theater of the absurd the result is a comprehensive study of an important but previously ignored aspect of lorca's work the comic spirit of federico garcía lorca includes a lorca chronology and an extensive bibliography
