an exhilarating tale that chronicles the adventures of a young boy who gained success in aeronautics by inventing a flying machine that can fly through the sky. The story is a classic tale of a young boy who dreams of flying and eventually achieves his dream through perseverance and innovation. The book is a great read for anyone who loves aviation and adventure.

don't believe everything you think the 6 basic mistakes we make in thinking thomas kida

achievements of a young boy in the realm of aviation
malister's narrative beautifully captures the spirit of determination innovation and the wonders of flight making it a must read for aviation enthusiasts the united states approach to china since the communist regime in beijing began the period of reform and opening in the 1980s was based on a promise that trade and engagement with china would result in a peaceful democratic state forty years later the hope of producing a benign people's republic of china utterly failed the communist party of china deceived the west into believing that the its system and the party ruled people's liberation army were peaceful and posed no threat in fact these misguided policies produced the emergence of a 21st century evil empire even more dangerous than a cold war version in the soviet union successive american presidential administrations were fooled by ill advised pro china policymakers intelligence analysts and business leaders who facilitated the rise not of a peaceful china but a threatening and expansionist nuclear armed communist dictatorship not focused on a single overriding strategic objective weakening and destroying the united states of america defeating the united states is the first step for china's current rulers in achieving global supremacy under a new world order based an ideology of communism with chinese characteristics the process included technology theft of american companies that took place on a massive scale through cyber theft and unfair trade practices the losses directly supported in the largest and most significant buildup of the chinese military that now directly threatens american and allied interests around the world the military threat is only half the danger as china aggressively pursues regional and international control using a variety of military forces including economic cyber and space warfare and large scale influence operations
