## **Ventus**

2016-08-11

after terrifying and titanic struggles a godlike artificial intelligence gone rogue has finally been destroyed but not before it scattered seeds of itself throughout

the galaxy on the terraformed planet ventus benign as the godlike winds which shaped and guarded its transformation have fallen silent calandria may is sent down to the surface where she quickly finds that an extension of the rogue ai a cyborg called armiger has planted a strange and powerful device in a young man named jordan mason jordan has visions he is desperate to find their meaning and source desperate enough to risk awakening the winds perhaps invoking the power that can destroy technology to protect the environment they created ventus is an epic journey across a fascinating planet with two big mysteries why have the winds fallen silent and is armiger or jordan carrying a resurrection seed karl schroeder born september 4 1962 is a canadian author he was born into the mennonite community in brandon manitoba and now lives in toronto with his wife and daughter an author of far future science fiction schroeder claims to present novel philosophical speculations in his work one of his concepts known as thalience has gained modest currency in the artificial intelligence and computer networking communities his novels ventus 2000 its prequel lady of mazes 2005 and the unrelated permanence 2002 present far future speculations on topics such as nanotechnology terraforming augmented reality and interstellar travel permanence won the aurora award in 2003 for best novel in english schroeder also wrote sun of suns book one of virga and co wrote the complete idiot s guide to publishing science fiction with cory doctorow

## **Art, Critical Pedagogy and Capitalism**

2020-12-30

this book offers a re examination of art production in terms that understand the process of learning as the production of art itself drawing on the thought of ranciere freire gramsci and mouffe it provides an account of the politics of art production and a theoretical understanding of hegemonic power while developing a view of method in critical pedagogy founded on the process of making adversaries through a re evaluation of the relationships between process arts production and pedagogy within accelerated developments of neoliberalism the author uncovers ways of forming a more co operative and less conflictual approach to democratic politics an investigation of ways in which art practice can be used to engage with critical pedagogy in relation to a commodity driven neoliberal agenda art critical pedagogy and capitalism constitutes a radical rethinking of art making and an attempt to address the paradox between the proliferation of the commodity of learning and the perceived crisis of arts education as such it will appeal to scholars of education pedagogy and the arts with interests in social and critical theory

# **The Magazine of Fantasy & Science Fiction**

## **Science Fiction - The Evolutionary Mythology of the Future**

2018-12-14

the universe shifts and changes suddenly you understand you get it and are filled with wonder that moment of understanding drives the greatest science fiction stories and lies at the heart of engineering infinity whether it s coming up hard against the speed of light and with it the enormity of the universe realising that terraforming a distant world is harder and more dangerous than you d ever thought or simply realizing that a hitchhiker on a starship consumes fuel and oxygen with tragic results it s hard science fiction where a sense of discovery is most often found and where science fiction s true heart lies this exciting and innovative science fiction anthology collects together stories by some of the biggest names in the field including gwyneth jones stephen baxter and charles stross

□□□□□□□□

1983-04-01

the great silence explores the multifaceted problem named after the great italian physicist enrico fermi and his legendary 1950 lunchtime question where is everybody in many respects fermi s paradox is the richest and the most challenging problem for the entire field of astrobiology and the search for extraterrestrial intelligence seti studies this book shows how fermi s paradox is intricately connected with many fields of learning technology arts and even everyday life it aims to establish the strongest possible version of the problem to dispel many related confusions obfuscations and prejudices as well as to offer a novel point of entry to the many solutions proposed in existing literature cirkovi

argues that any evolutionary worldview cannot avoid resolving the great silence problem in one guise or another

## **The Year's Best Science Fiction: Twenty-Ninth Annual Collection**

2012-07-03

from karl schroeder author of lockstep comes the near future science fiction hacker s heist stealing worlds the verge new science fiction and fantasy books to check out in june sura neelin is on the run from her creditors from her past and her father s murderers she can t get a job she can t get a place to live she can t even walk down the street the total surveillance society that is mid 21st century america means that every camera and every pair of smart glasses is her enemy but sura might have a chance in the alternate reality of the games people can disappear in the larp game worlds into the alternate economy of notchcoin and blockchains the people who build the games also program the surveillance networks she just needs an introduction and the skills to play turns out she has very valuable skills and some very surprising friends at the publisher s request this title is being sold without digital rights management software drm applied

# **The Year's Best Science Fiction: Thirty-Second Annual Collection**

2015-07-07

science fiction is a literary genre based on scientific speculation works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings science fact and science fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences although coverage will discuss the science behind the fiction from the classical age to the present focus is naturally on the 19th century to the present when the industrial revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future as scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions the goal of the encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non english speaking countries are discussed as needed

## **Mammoth Book of Best New SF 28**

2015-10-01

the sunless countries is the fourth novel in the virga series of hard science fiction space opera adventures in an ocean of weightless air where sunlight has never been seen only the running lights of the city of pacquaea glitter in the dark one woman leal hieronyma maspeth lives and dreams of love among the gaslit streets and cafés and somewhere in the abyss of wind and twisted cloud through which pacquaea eternally falls a great voice has begun speaking as its cold words reach from space to the city walls and as outlying towns and travelers ships start to mysteriously disappear only leal has the courage to try to understand the message thundering from the distance even the city s most famous and exotic visitor the sun lighter and hero named hayden griffin refuses to turn aside from his commission to build a new sun for a foreign nation he will not become the hero that leal knows the city needs so it is up to her to listen and ultimately reply to the voice of the worldwasp because an astonishing disaster

threatens virga at the publisher s request this title is being sold without digital rights management software drm applied
