

Free download Paper on benjamin franklin [PDF]

benjamin franklin self revealed is a biographical and critical study on benjamin franklin s life and work mostly based on franklin s own writings benjamin franklin 1706 1790 was an american polymath and one of the founding fathers of the united states franklin was a leading writer printer political philosopher politician freemason postmaster scientist inventor humorist civic activist statesman and diplomat as a scientist he was a major figure in the american enlightenment and the history of physics for his discoveries and theories regarding electricity as an inventor he is known for the lightning rod bifocals and the franklin stove among other inventions franklin earned the title of the first american for his early and indefatigable campaigning for colonial unity initially as an author and spokesman in london for several colonies as the first united states ambassador to france he exemplified the emerging american nation franklin was foundational in defining the american ethos as a marriage of the practical values of thrift hard work education community spirit self governing institutions and opposition to authoritarianism both political and religious with the scientific and tolerant values of the enlightenment contents franklin s moral standing and system franklin s religious beliefs franklin the philanthropist and citizen franklin s family relations franklin s american friends franklin s british friends franklin s french friends franklin s personal characteristics franklin as a man of business franklin as a statesman franklin as a man of science franklin as a writer benjamin franklin is the model american of an america that we have created but if we can go beyond our preconceptions of franklin and the 1776 and 1976 image of america we can learn something of the truth as well as the art of his writings the essays in this volume evaluate franklin as a printer publicist and travel writer they probe the structure style and organization of his most famous literary works and assess his place in intellectual history taken together the essays provide an overview of franklin s attitude purpose and significance as a man and as a writer for his own time and for ours taken separately they provide valuable insights into what franklin was and wrote the first group of essays deals with franklin s life the second group of essays treats franklin as a writer the last two essays concern franklin s reputation and influence benjamin franklin s writings represent a long career of literary scientific and political efforts over a lifetime which extended nearly the entire eighteenth century franklin s achievements range from inventing the lightning rod to publishing poor richard s almanack to signing the declaration of independence in his own lifetime he knew prominence not only in america but in britain and france as well this volume includes franklin s reflections on such diverse questions as philosophy and religion wood scrutinizes the less typically american traits possessed by franklin such as his longtime loyalty to the crown and why he still became one of the revolution s necessary men the autobiography of benjamin franklin was written by benjamin franklin from 1771 to 1790 however franklin himself appears to have called the work his memoirs although it had a torturous publication history after franklin s death this work has become one of the most famous and influential examples of autobiography ever written the autobiography of benjamin franklin is the traditional name for the unfinished record of his own life written by benjamin franklin from 1771 to 1790 however franklin himself appears to have called the work his memoirs although it had a tortuous publication history after franklin s death this work has become one of the most famous and influential examples of an autobiography ever written franklin s account of his life is divided into four parts reflecting the different periods at which he wrote them there are actual breaks in the narrative between the first three parts but part three s narrative continues into part four without an authorial break presents a portrait of benjamin franklin as a scientist inventor diplomat writer business strategist and statesman while tracing his life as one of america s founding fathers reproduction of the original the complete works of the late dr benjamin franklin by benjamin franklin originally written as a guide for his son benjamin franklin discusses his life accomplishments and ideas reproduction of the original memoirs of benjamin franklin by benjamin franklin after the signing of the definitive peace treaty on september 3 1783 franklin s official duties as minister plenipotentiary diminished great britain refused to negotiate a commercial agreement and congress failed to act on the draft treaties of commerce with denmark and portugal that franklin had sent them the previous summer in the six months after the peace was settled franklin s sole diplomatic achievement was a draft consular convention with france with his welcome leisure time however franklin eagerly followed scientific developments witnessing the first balloon ascensions in paris advised the french government on schemes for civic improvement and wrote three of his most remarkable pieces about what it meant to be american based on vols 1 15 of the papers of benjamin franklin charming self portrait covers boyhood work as a printer political career scientific experiments much more its openness honesty and readable style have made the autobiography one of the great classics of the genre the autobiography of benjamin franklin details the life of this famous founding father inventor philosopher satirist political theorist statesman and diplomat franklin s irreverent yet intelligent and pure intentioned thoughts on life shaped the idea of what it means to be both a free thinker and a united states citizen follow the accomplishments of this influential man in his own words and discover a life well spent this epic history compares the empires built by spain and britain in the americas from columbus arrival in the new world to the end of spanish colonial rule in the early nineteenth century j h elliott one of the most distinguished and versatile historians working today offers us history on a grand scale contrasting the worlds built by britain and by spain on the ruins of the civilizations they encountered and destroyed in north and south america elliott identifies and explains both the similarities and differences in the two empires processes of colonization the character of their colonial societies their distinctive styles of imperial government and the independence movements mounted against them based on wide reading in the history of the two great atlantic civilizations the book sets the spanish and british colonial empires in the context of their own times and offers us insights into aspects of this dual history that still influence the americas differentiated book it has a historical context with research of the time this book contains a historical context where past events or the study and narration of these events are examined the historical context refers to the circumstances and incidents surrounding an event this context is formed by everything that in some way influences the event when it happens a fact is always tied to its time that is to its characteristics therefore when analyzing events that took place tens hundreds or thousands of years ago it is essential to know the historical context to understand them otherwise we would be analyzing and judging what happened in a totally different era with a current perspective ben franklin is probably one of the best references of life that one can have as a model he quickly understood that time is money and that with intelligence prudence and effort one could achieve anything he knew how to move in the arenas of politics and business without neglecting his personal concerns and his desire for knowledge the result was a life to frame fully exploited but always from the guide of reason benjamin franklin was born in boston united states in 1706 son of josiah franklin and abiah folger he was the fifteenth son of the 17 who had the marriage contrary to what one might think given his future many people know that benjamin franklin discovered electricity through lightning but he was also a great inventor and helped write the declaration of independence young readers will learn about franklin s life in this appealing biography that has been translated into spanish and features plenty of vibrant images supportive text fun fact boxes and an accommodating timeline glossary and index this book is a comprehensive collection of the writings of benjamin franklin one of the greatest american statesmen and thinkers of all time it includes franklin s most famous and influential works along with detailed commentary and notes by albert henry smyth making it a must read for anyone interested in american history and political thought this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this
