Beautiful Questions in the Classroom

2020-04-02

what does it mean to learn most of us eventually realize that genuine learning is less about delivering the right answers and more about asking the right questions in an age of automation questioning is a uniquely human skill one we should foster in school and in life this book is an essential read for educators at every level daniel h pink author of when drive and a whole new mind for teachers around the world there is a moral urgency to work with young learners in innovative ways that nurture agency curiosity agile thinking and problem solving the role of questions in this cannot be underestimated kath murdoch consultant in education and author of the power of inquiry why does engagement plummet as learners advance in school why does the stream of questions from curious toddlers slow to a trickle as they become teenagers most importantly what can teachers and schools do to reverse this trend beautiful questions in the classroom has the answers this inspirational book from warren berger and elise foster will help educators transform their classrooms into cultures of curiosity the book explores the importance of questioning and how inquiry leads to learning innovation and personal growth readers will find strategies to inspire bigger more beautiful student questions techniques to help educators ask more beautiful questions real world examples case studies practical ideas and question stems videos showing strategies at work great teachers help students to ask bigger more beautiful questions this book will prepare and inspire educators to develop a powerful teaching approach that creates a classroom full of student driven inquiry

The Semantic Web – ISWC 2008

2008-10-21

the is a globalinformationspace consistingoflinked documents andlinked data as the continues to grow and new technologies modes of interaction and applications are being developed the task of the semantic is to unlock the power of information available on the into a common semantic inf mation space and to make it available for sharing and processing by automated tools as well as by people right now the publication of large datasets on the the opening of data access interfaces and the encoding of the semantics of the data extend the current human centric now the semantic c munity is tackling the challenges of how to create and manage semantic content how to make semantic applications robust and scalable and how to organize and integrate information from di erent sources for novel uses to foster the exchange of ideas and collaboration the international semantic conference brings together researchers and practitioners in relevant disciplines such as arti cial intelligence databases social networks distributed computing engineering information systems natural language processing soft c puting and human computer interaction this volume contains the main proceedings of iswc 2008 which we are cited to o er to the growing community of researchers and practitioners of the semantic we got a tremendous response to our call for research papers from a truly international community of researchers and practitioners from 41 countries submitting 261 papers each paper receivedan averageof 3
