In recent years the issue of domestic abuse and violence has gained a lot of attention as the extent of it has become known domestic abuse and violence is now of high concern to most churches because it is evident that domestic abuse figures are much the same in our churches and possibly higher in evangelical churches where the headship of men and the submission of women is made the God-given ideal in this book Kevin Giles surveys competently the scientific information on this matter now available and notes that the consensus is that the most sure indicator of higher incidences of abuse are found in communities where men are privileged and expected to be in charge and women are subordinated this he argues should make complementarians consider afresh if in fact the subordination of women is the God-given ideal established in creation before the fall

analysis of the literary scheme of the letters to timothy suggests that graphe as it is employed in each letter may legitimately be understood to include some of the apostolic writings that now appear in the new testament in affirming the pauline authorship of the pastoral epistles swinson argues that a form of the gospel of luke stands as the source of the second referent of graphe in 1 tim 5 18 second swinson contends that pasa graphe in 2 tim 3 16 includes the apostolic writings extant in paul s day specifically luke s gospel and some of paul s own writings these parallel lines of analysis demonstrate that paul ascribes to his own writings and to those of his coworkers an authoritative standing equal to that of the sacred writings ta hiera grammata found in the old testament while many questions surrounding biblical authority and the biblical canon remain paul s use of graphe in 1 and 2 timothy nevertheless advances a high view of both old testament and new testament scripture
