founded in 1937 the u s merchant marine academy at kings point new york has trained more than 20 000 professional mariners and in the process has weathered many turbulent times in peace and war draws on extensive research including archival work and interviews with past and present day administrators alumni and current midshipmen to document the academy s evolution from its beginnings to the present this balanced and comprehensive work details the vision and contributions of determined leaders both at kings point and in washington who shaped the academy it describes the evolution of the u s merchant marine and explains how a tragic fire aboard the passenger ship ss morro castle off the coast of new jersey in which the shameful behavior of the ship s crew caused the unnecessary deaths of many passengers led to the passage of the merchant marine act in 1936 which paved the way for the academy it details how kings point has adjusted its training and priorities to meet the evolving needs of the nation for example visual signaling training was added to the curriculum in response to the growing threat from german subs in the months leading up to world war ii in june 1940 cadet william o reilly s frantic signaling from the ss washington a vessel carrying more than 1 700 refugees averted its sinking by a hostile submarine from its inception kings point has used the high seas as a campus with its students shipping out for a full year on commercial vessels to receive a thorough grounding in practical seamanship in wartime this has meant that kings point cadets often have found themselves in harm s way and some have paid the ultimate price between 1942 and 1945 for example 142 kings point cadets were lost in action and countless others survived attacks all around the world at other times the conflict has been closer to home the book also describes the academy s invaluable service after 9 11 when kings point personnel and vessels worked around the clock to ferry fire fighters and rescue personnel to and from nearby ground zero in lower manhattan using compelling examples in peace and war

conveys the educational experience at the academy today including the regiment of midshipmen and the required sea year both of which sharply distinguish kings point from almost all other educational institutions it uses the stories of ten graduates in norfolk virginia to explain what today s merchant marine is and to illustrate the wide range of careers and leadership roles for which the academy prepares its students finally the book details the dedication of the many alumni and other supporters who are committed to continuing kings point s contributions to the nation and the maritime industry and to preserving the proud traditions of this venerable institution

how business leaders can move their dei efforts from intention to impact through strategy and culture change in the aftermath of george floyd's murder corporate america has doubled down on its public intentions to be more inclusive and equitable yet beyond the pledges it is difficult to see which system changes make a real difference in from intention to impact malia lazou draws on her background as a community organizer her corporate career as a bank president and now her experience as a leading dei consultant to explain what has been holding organizations back and what they need to do better first and foremost she recognizes that truly moving from intention to impact means targeting and changing the traditions and culture that normalize whiteness from intention to impact shows what organizations leaders and people at all levels must do to create more inclusive environments that honor and value diversity lazou shares a seven stage guide through this process as well as a 3l model of listening learning and loving that readers can use from

the initial excitement of doing something to the frustration when the inevitable pushback comes and finally to the determination to do the hard work despite the challenges on corporate and political fronts most compelling from intention to impact shows that while commitment from the top is paramount for dei to be most effective it needs to be decentralized among managers within teams and across the organization a crucial read for anyone looking to future proof their company from intention to impact goes beyond the feel good pr centric actions to showcase the real dei work that must be done to create true and lasting systemic change
