this book challenges the long established structure of chinese history around dynasties adopting a more organic approach which emphasises cultural and economic trends that transcend arbitrary dynastic boundaries it argues that with the collapse of the tang court and northern control over the holistic empire in the last decades of the ninth century the now autonomous kingdoms that filled the political vacuum in the south responded with a burst of innovative energy that helped set the stage for the economic and cultural transformations of the following song dynasty moreover it argues that these transformations and this economic and cultural innovation deeply affected the subsequent model of holistic empire which continues right up to the present and that therefore the interregnum century of division left a critically important legacy
