2002

the synthetic phonics approach is used in all primary schools in England. If you are a trainee or beginning primary school teacher, you need to demonstrate a confidence in the teaching of phonics to meet the teachers' standards and gain QTS. This is a practical, up-to-date guide to teaching children to read using synthetic phonics. It helps you to understand the theory behind phonics and how children's learning of reading can develop. It gives you practical teaching strategies and outlines how you can assess and diagnose reading problems. This second edition has been updated to include new chapters on the new phonics check in Year 1 and overviews of popular phonics schemes used in England and Scotland.

Textbook of Neonatal Resuscitation

2020-09-06

New 8th edition innovative resource for interactive simulation-based teaching and learning the neonatal resuscitation program. NRP is an educational program jointly sponsored by the American Academy of Pediatrics (AAP) and the American Heart Association (AHA). The course is designed to teach an evidence-based approach to resuscitation of the newborn to health care professionals who care for newborns at the time of delivery. NRP Essentials and NRP Advanced. The NRP 8th edition introduces a new educational methodology to better meet the needs of health care professionals who manage the newly born baby. New in the 8th edition: key points at the beginning of each lesson; quick response QR codes that enable the reader to view short videos about the topics on their mobile device; lesson review questions grouped together at the end of each lesson; quality improvement opportunities and frequently asked questions in each lesson; new sections in Lesson 10: special considerations about resuscitation of the newborn with a myelomeningocele or an abdominal wall defect; three supplemental lessons: improving resuscitation team performance, resuscitation outside the delivery room, and bringing quality improvement to your resuscitation team that allow NRP users to enhance their resuscitation knowledge and performance.

Research-based Principles for Adult Basic Education Reading Instruction

1939

The articles in this volume examine a number of critical issues in grammaticalization studies, including the relationship between grammaticalization and pragmaticalization, subjectification and intersubjectification, and grammaticalization and language contact. The contributions consider data from a broad range of spoken and signed languages, including Greek, Japanese, Nigerian Pidgin, Swedish, and Turkish Sign Language. The authors work in a variety of theoretical frameworks and draw on a number of research traditions. The volume will be of primary interest to historical linguists, though the diversity of approaches and sources of data mean that the volume is also likely to have considerable general appeal.

Textbook of Neonatal Resuscitation (NRP) 7th Edition 2016

2006

This multidisciplinary handbook pulls together in one volume the research on children's and young adult literature, which is currently scattered across three intersecting disciplines: education, English, and library and information science.
