The Lunar Atmosphere and Dust Environment Explorer Mission (LADEE) 2015-06-15

this volume contains five articles describing the mission and its instruments the first paper by the project scientist richard c elphic and his colleagues describes the mission objectives the launch vehicle spacecraft and the mission itself this is followed by a description of la dee s neutral mass spectrometer by paul mahaffy and company this paper describes the investigation that directly targets the lunar exosphere which can also be explored optically in the ultraviolet in the following article anthony colaprete describes la dee s ultraviolet and visible spectrometer that operated from 230 nm to 810 nm scanning the atmosphere just above the surface not only is there atmosphere but there is also dust that putatively can be levitated above the surface possibly by electric fields on the moon s surface mihaly horanyi leads this investigation called the lunar dust experiment aimed at understanding the purported observations of levitated dust this experiment was also very successful but in this case their discovery was not the electrostatic levitation of dust but that the dust was raised by meteoroid impacts this is not what had been expected but clearly is the explanation that best fits the data originally published in space science reviews volume 185 issue 1 4 2014

the objective of this book is to explain today s spiritual ascension of earth and humanity at this unique period of planetary history and how the divine beings are helping us transcend and transform the book is part of the literature that is being created about the post 2012 transition the book is deeply grounded in the author s own personal experience in working with the spiritual masters in teaching spirituality to others and in connecting the spiritual changes with current world events such as the environmental crisis financial collapse ufos and war and political crises the book also offers detailed information in the traditions of gnosticism and the perennial philosophy and provides numerous aids for seekers on establishing and maintaining their own spiritual practice the themes of the book are how the aeons or divine beings of gnostic times have returned to the consciousness of humanity to help guide the ongoing ascension how we were created by god to evolve back to our original face i e who we really are in our pristine goodness and purity how the aeons have been contacted through channeling by two specific groups those channeling the nine and those channeling the ra material how facing our subconscious and transforming the ego are essential to our personal transformation the goal is to find the love in our hearts that will take us from third density egoic consciousness to fourth density consciousness of the spiritual heart here the heart chakra opens allowing us to have love for all creation and experience god as a presence within how we are tempted by ego and thereby fall under the influence of the others i e satanic presences the same as those which brought about the fall of adam and eve how certain archetypal teachings such as the kabbalah the law of three and law of seven and the ray of creation provide a context of ideas that can give us a map for understanding how the author himself experiences the divine beings within his own consciousness who jesus really is i e an extraterrestrial presence under the overall guidance of the aeons jesus is on earth today in his etheric form to aid humanity whenever called upon how the concept of sin has been made obsolete under the new spiritual dispensation and replaced by the idea of error that can be atoned for and surmounted how the new thought movement a course in miracles the teachings of indian masters like ramdas and other sources point the way to the ascension how the author s experience and involvement over forty years in several major spiritual movements have brought him to his present level of understanding and offered him tremendous hope for the future how the author s work with the government during his 32 year career his involvement as a whistleblower with the space shuttle challenger disaster and his work with the world of government finance have given him opportunities to search for and serve the truth in everyday life how the controllers of humanity are seeking in vain to bolster the egoic structures they operate to avoid what feels to them like chaos and collapse whereas the old must give way to the new in every field of life how the teachings of jesus are further reflected in many spiritual movements today including his appearance to glenda green resulting in the teachings contained in the epic account entitled love without end jesus speaks the role played by ufos crop circles and et contact in helping raise humanity s consciousness of other worlds and our own possibilities within the cosmos how in the face of overwhelming environmental political economic and ethical problems facing humanity the new earth is yet in formation and how each individual can be a part of it specific spiritual practices involving meditation prayer and contemplation are given to assist in this end
