paced thriller that explores the secret history of the twentieth century and the rise of the conqueror known as Khan, an electrifying thriller set in the bestselling Star Trek: The Next Generation universe like intertwining filaments of human and alien DNA, a ruthless campaign of revenge has threaded its way through the galaxy touching billions of sentient beings and changing forever the life of Lieutenant Thomas Riker. Tom Riker, an identical duplicate of the Starship Enterprise's first officer, is serving as a Starfleet medical courier when he encounters a group of Maquis renegades led by a former Starfleet officer named Chakotay. A planet in the demilitarized zone, now controlled by the Cardassians, has been stricken with the same deadly disease that has plagued the Alpha Quadrant for years, and only Riker can get the medical supplies the Maquis so desperately need. But the Cardassians would rather destroy all life on the planet than risk letting the epidemic spread. Ever since the fall of the Thallonian Empire, Si Cwan has been searching for his younger sister, the only other survivor of the royal family. His quest has been a hard one filled with many disappointments, but now it may be nearing its end. On the planet Montos, a mysterious young woman whose past is shrouded in secrecy finds herself pursued by both the fanatical Redeemers and a vicious race of feral predators known only as the Dogs of War. All are in search of information regarding the true nature and location of the Quiet Place, a mystical realm celebrated in myth and legend. Only this same woman, now called Riella, may hold the secret of the Quiet Place, a secret that the Redeemers and others will kill to possess. Is Riella indeed Si Cwan's long-lost sister? Before he can learn the truth, he and his crewmates must brave the unchecked savagery of the Dogs of War and enter the terrifying heart of the Quiet Place.

The Hawking left Earth during the 21st century on a one-way mission to colonize a distant world. Due to the relativistic effects of pre-warp travel, its crew has aged only thirty years while two centuries have passed.
