Daniel Isn't Talking 2008-09-04 a powerful novel exploring the effects of autism on a young family from marti leimbach author of the international bestseller dying young who has experienced and dealt with the condition within her immediate family

Daniel Isn't Talking 2007-05-08 melanie marsh is an american living in london with her british husband stephen and their two young children the marshes orderly home life is shattered when their son daniel is given a devastating diagnosis resourceful and determined not to acceptt what others including her husband say is inevitable melanie finds an ally in the idealistic andy whose unorthodox ideas may just prove that daniel is far more normal than anyone imagined daniel isn t talking is a moving story of a family in crisis told with warmth compassion and humor

Representing Autism 2008-06-01 from concerns of an autism epidemic to the mmr vaccine crisis autism is a source of peculiar fascination in the contemporary media discussion of the condition has been largely framed within medicine psychiatry and education but there has been no exploration of its power within representative narrative forms representing autism is the first book to tackle this approach using contemporary fiction and memoir writing film photography drama and documentary together with older texts to set the contemporary fascination with autism in context representing autism analyses and evaluates the place of autism within contemporary culture and at the same time examines the ideas of individual and community produced by people with autism themselves to establish the ideas of autistic presence that emerge from within a space of cognitive exceptionality central to the book is a sense of the

legitimacy of autistic presence as a way by which we might more fully articulate what it means to be human

BMJ 2006 it's 1967 and Susan Gifford is one of the first women correspondents in Saigon dedicated to her job and passionately in love with an American TV reporter. Son is a Vietnamese photographer anxious to get his work to the American press. Together they cover every aspect of the war from combat missions to the workings of field hospitals. Then one November morning after narrowly escaping death, Susan and Son find themselves the prisoners of three Vietcong soldiers, helpless in the hands of the enemy. They face the jungle, living always with the threat of being killed, and the slow realization that their complicated relationship is the only thing sustaining them both.

The Man From Saigon 2010-02-23 In this spellbinding thriller and YA debut from bestselling author Marti Leimbach, Kira Adams has discovered a cure for death, and it may just cost her life. Things aren't going well for Kira at home: she cares for her mother and fends off debt collectors at school; she's awkward and shy, plus she may flunk out if she doesn't stop obsessing about science, her passion and the one thing she's good at. Very good at. When she wins a prestigious science contest, she draws the attention of the celebrated professor Dr. Gregory Munn, as well as his handsome assistant, leading to a part-time job in a top-secret laboratory. The job is mostly cleaning floors and equipment, but one night while running her own experiment, she revives a lab rat that has died in her care. One minute it is dead, the next it is not. Suddenly, she's the remarkable wunderkind, the girl who can bring back the dead. Everything is going her way, but it turns out that science can be a dangerous business, and Kira is

swept up into a world of international rivalry with dark forces that threaten her life

Seed 2006 from the author of *daniel isn't talking* and *dying young* comes a shattering new novel a page turner about a sexual relationship between a grown man and a newly teenaged girl june was a young widow with a hopeless crush on craig kirtz a disc jockey at a local rock station to her surprise the two struck up a friendship that seemed headed for something more but it was june's thirteen year old daughter bobbie whom craig had wanted all along bobbie thought her secret life the sex the drugs the illicit relationship itself could remain safely buried in the past but thirty years later when bobbie discovers craig's attentions to her had been repeated with any number of girls she returns home with one purpose in mind to bring craig to trial her decision is greeted with mixed feelings some people think that bringing charges against someone for a crime committed so many years ago is unjustified she's called a middle aged woman with a vendetta she's accused of waging war against her own family but the past has a way of revealing itself and some relationships lie dormant through the years ready to stir to life at the slightest provocation june remembers things differently from the way bobbie does craig insists he has done nothing wrong as their traumatic history is relived in the courtroom bobbie and june must come to terms with the choices they made and face the truth they have long refused to acknowledge told with warmth and compassion this is a moving deeply absorbing story of a family in crisis

People 2006-03 autism disease disorder or difference what causes autism genes or environment can biomedical treatments cure autism and are they safe an increased public awareness of autism has resulted in a rising trend of diagnoses creating the impression of an epidemic many parents of children newly diagnosed with autism have been impressed by plausible theories blaming vaccines and other environmental causes many have also been captivated by claims that biomedical treatments including special diets and supplements detoxification and medications can achieve

dramatic results in defeating autism michael fitzpatrick a family doctor and father of a son with autism questions the scientific basis of environmental explanations of autism and exposes the incoherence of unorthodox biomedical theories and therapies this book reveals that these therapies are far from pioneering interventions and they remain unsubstantiated by scientific authorities campaigns promising to defeat or cure autism now have attracted much support among parents struggling with their difficult children but the crusade against autism risks dehumanising and stigmatising those who are identified as autistic and their families this compelling book is essential reading for students and professionals working in the field of autism as well as academics concerned with the public understanding of science and the treatment of scientific and medical controversies in the media
