previous ones so you get to understand how to use the document service well as this is the fourth book in the series on apps script it does assume a basic knowledge of apps script javascript and a little html that said every bit of code is explained with links provided to example form sheet and document files tested using the new v8 runtime and updated using the new script editor contents document service overview chapter 1 creating a google doc from a form submission chapter 2 master document copier chapter 3 edit a document template using placeholders chapter 4 making an invoice with multiple items chapter 5 making a document from scratch chapter 6 making student reports with progress bars chapter 7 emailing reports as a pdf or as a link chapter 8 create multiple reports in one document chapter 9 email specific conference information chapter 10 sending conference info via a web app chapter 11 update document from data on the web links to all the complete scripts and example files updated 2021

Google Apps Script

2014-12-05

Google Apps Script is a powerful tool for automating tasks in Google Workspace. It allows you to create custom scripts that can interact with various Google services like Docs, Sheets, and Gmail. This book provides a comprehensive guide to using Google Apps Script, covering everything from basic syntax to advanced techniques for integrating with external APIs and services. The book is updated to reflect the latest features and changes in the Google Apps Script ecosystem.

Essentials of Cloud Computing

2013-12-26

cloud computing accessing computing resources over the internet is rapidly changing the landscape of information technology its primary benefits compared to on premise computing models are reduced costs and increased agility and scalability hence cloud computing is receiving considerable interest among several stakeholders businesses the it ind

Google Maps JavaScript API Cookbook

2013-07-01

google maps api cookbook follows a fast paced high level structured cookbook approach with minimal theory and an abundance of practical real world examples explained in a thorough yet concise manner to help you learn quickly and efficiently google maps api cookbook is for developers who wish to learn how to do anything from adding a simple embedded map to a website to developing complex gis applications with the google maps javascript api it is targeted at javascript developers who know how to get by but who are also seeking the immediacy of recipe based advice

Universal Access in Human-Computer Interaction: Applications and Services for Quality of Life

2019-10-31

the three volume set Incs 8009 8011 constitutes the refereed proceedings of the 7th international conference on universal access in human computer interaction uahci 2013 held as part of the 15th international conference on human computer interaction hcii 2013 held in las vegas usa in july 2013 jointly with 12 other thematically similar conferences the total of 1666 papers and 303 posters presented at the hcii 2013 conferences was carefully reviewed and selected from 5210 submissions these papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems the papers accepted for presentation thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas the total of 230 contributions included in the uahci proceedings were carefully reviewed and selected for inclusion in this three volume set the 78 papers included in this volume are organized in the following topical sections universal access to smart environments and ambient assisted living universal access to learning and education universal access to text books ebooks and digital libraries health well being rehabilitation and medical applications access to mobile interaction

Mediating Nature

2023-06-01

mediating nature considers how technology acts as a mediating device in the construction and circulation of images that inform how we see and know nature scholarship in environmental communication has focused almost exclusively on verbal rather than visual rhetoric and this book engages ecocritical and ecompositional inquiry to shift focus onto the making of images contributors to this dynamic collection focus their efforts on the intersections of digital media and environmental ecological thinking part of the book s larger argument is that analysis of mediations of nature must develop more critical tools of analysis toward the very mediating technologies that produce such media that is to truly understand mediations of nature one needs to understand the creation and production of those mediations right down to the algorithms circuit boards and power sources that drive mediating technologies ultimately mediating nature contends that ecological literacy and environmental politics are inseparable from digital literacies and visual rhetorics the book will be of interest to scholars and students working in the fields of ecocriticism ecomposition media ecology visual rehtoric and digital literacy studies

The International Governance of Artificial Intelligence

1895

this timely book investigates emerging efforts to govern artificial intelligence ai at an international level it aptly emphasizes the complex interactions involved when creating international laws exploring potential and current developments in ai regulation

imagine if a student spent as much time managing information as celebrities doted on dieting while eating too much food may be the basis of a moral panic about obesity excessive information is rarely discussed as a crisis of a similar scale obviously plentiful and high quality food is not a problem if eating is balanced with exercise but without the skills of media and information literacy students and citizens wade through low quality online information that fills their day yet does not enable intellectual challenge imagination and questioning digital dieting from information obesity to intellectual fitness probes the social political and academic difficulties in managing large quantities of low quality information but this book does not diagnose a crisis instead digital dieting provides strategies to develop intellectual fitness that sorts the important from the irrelevant and the remarkable from the banal in april 2010 and for the first time facebook received more independent visitors than google increasingly there is a desire to share rather than search but what is the impact of such a change on higher education if students complain that the reading is too hard then one response is to make it easier if students complain that assignments are too difficult then one way to manage this challenge is to make the assignments simpler both are passive responses that damage the calibre of education and universities in the long term digital dieting from information obesity to intellectual fitness provides active conscious careful and applicable strategies to move students and citizens from searching to researching sharing to thinking and shopping to reading

Programming Microsoft Dynamics™ NAV 2015

1929

this is the first comprehensive review of the intergovernmental committee igc of the world intellectual property organization wipo established in 2000 it provides an in depth consideration of the key thematic areas within wipo discussions genetic resources grs traditional knowledge tk and traditional cultural expressions tces through the perspectives of a broad range of experts and stakeholders including indigenous peoples and local communities it also looks at how these areas have been treated in a number of forums and settings including national systems and experiences and also in trade agreements and the interface with wipo discussions furthermore the book analyses the process and the negotiation dynamics since the igc received a

mandate from wipo members in 2009 to undertake formal text based negotiations towards legal instruments for the protection of gr tk and tces while there has been some progress in these negotiations important disagreements persist if these are to be resolved the adoption of these legal instruments would be a significant development towards resolving key gaps in the modern intellectual property system in this regard the book considers the future of the igc and suggests options which could contribute towards achieving a consensual outcome
