shape our perception of the role of the alien in shakespeare s work and expand the texts in new and relevant directions for a contemporary audience the essays consider the immigrant experience strangers and strangeness values of hospitality in relationship to the foreigner the idea of a host society religious refuge and refugees legal views of inclusion and exclusion structures of xenophobia and early modern homeland security in doing so this volume offers a variety of perspectives on the immigrant experience in shakespearean drama and how the influential nature of the foreigner affects perceptions of community and identity and collection questions what is at stake in staging the anxieties and opportunities associated with foreigners ultimately shakespeare and immigration offers the first sustained study of the significance of the immigrant and alien experience to our understanding of shakespeare s work by presenting a compilation of views that address shakespeare s attention to the role of the foreigner the volume constitutes a timely and relevant addition to studies of race ethics and identity in shakespeare environmental law and governance are the cornerstones of global efforts to conserve the environment protect resources and ensure fair and equitable outcomes for all of the planet s inhabitants this book presents a series of thought provoking chapters which consider the place of governance and law in the defence against imminent and ongoing threats to ecological social and cultural integrity written by an international team of both established and early career scholars from various disciplines and backgrounds the chapters cover the most pressing and contemporary issues in environmental law and governance these include access and benefit sharing the right to food and water climate change coping and adaptation human rights the rights of indigenous communities public and environmental health and many more the book has a general focus on environmental governance and law in the european union and offers points of comparison with canada and north and south america this book provides a multidisciplinary and comparative look at the contemporary phenomenon of conscientious objection or contestation in the name of religion and examines the key issues that emerge in terms of citizenship and democracy these are analysed by looking at the different ways of challenging or contesting a legal obligation on the grounds of religious beliefs and convictions the authors focus on the meaning of conscientious objection which asserts the legitimacy of convictions in particular religious convictions in determining the personal or collective relevance of the law and of public action the book begins by examining the main theoretical issues underlying conscientious objection exploring the implications of the protection of freedom of conscience the place of religion in the secular public sphere and the recognition and respect of ethical pluralism in society it then focuses on the question of exemptions and contestations of civil norms using a multidisciplinary approach to highlight the multiple and diverse issues surrounding them as well as the motives behind them this book will be of great interest to scholars specialists and graduate and advanced undergraduate students who are interested in issues of religious diversity researchers and policymakers in think tanks ngos and government units will find the volume useful in helping to identify key issues in understanding the phenomenon of conscientious objection and its implications in managing ethical diversity in contemporary societies this book focuses on the emergence of covid 19 and climate change as twin mega risks to cities of both developed and developing countries the work analyses how the pandemic has transformed city functions promoted remote working and affected socializing education and learning patterns recreation as well as shopping and entertainment it discusses the lessons learned from these two mega risks the evolution of urban patterns and functions in their wake and provides visionary thinking for the improvement of cities from the experiences gained the covid 19 pandemic and climate change are both posing serious threats to cities future together they demand changes in the ways cities function and operate the work presents a case for a better understanding of the twin mega risks the magnitude of their impacts the responses of cities in combating these issues and planning strategies for preparing mitigating and adapting to these and future risks the book is designed to provide reliable resource materials for a wide audience such as planners professional practitioners scientists students teachers and researchers working in various fields including geography environmental sciences social sciences policy and planning the state subsidies and philanthropy that traditionally allowed orchestras to flourish have greatly diminished in the wake of recent financial crises and the covid 19 pandemic as in other fields affected by the precarious labor arrangements prevalent in the world of work today it is the employees and

freelancers in this case the musicians themselves who suffer most in this deeply knowledgeable and provocative book a highly acclaimed scholar who combines the roles of law professor music journalist and orchestral violinist presents the first major legal study to focus on labor relations and the institutional dynamics at play within orchestras drawing on personal interviews with more than 250 orchestral musicians and other stakeholders whose testimonies and actions often stand in contradiction to narratives provided by cultural economists and government cultural policymakers the author uncovers the deteriorating welfare of musicians in two countries the united states and the netherlands in which she has considerable practical orchestral experience the methodology will reverberate with great intensity to musicians worldwide with its novel system of movements that focus on different vulnerabilities besetting orchestral players to highlight such issues and topics as orchestra financing with a special focus on the nonprofit sector and the changing nature of state subsidies in europe the impact of the perception of orchestras as elitist and of limited social value discriminatory practices in auditions and hiring legal and practical relevance of contemporary questions of employee categorization regularly employed self employed false self employed and how fair practice codes and collective bargaining agreements can be designed implemented and enforced an interdisciplinary approach to a multiplicity of vulnerabilities in the sector the study incorporates economic historical and legal research along with a consideration of sociological factors case studies from the eu court of justice the dutch supreme court the supreme court of the united states and the u s national labor relations board offer practical insight into specific legal issues including the fundamental question of how musician employees are differentiated from freelancers reflecting on the cutbacks and compromises that traumatize orchestral negotiations in today s musical world the book not only provides orchestral musicians with a wealth of useful information and suggestions for future action but also adds to the growing body of legal literature on the self limitations of labor law and the increasing vulnerability of workers practitioners in labor and employment law as well as academics in the field will benefit from a powerful analysis of workers vulnerabilities in today s labor market
