## **Western Democracies and the New Extreme Right Challenge**

2009-04-29

the last decade has seen the growth of extreme right movements throughout the western world yet how should democracies react to the challenge that they pose

## **Political Oppositions in Western Democracies**

1970

what chiefly distinguishes this work is the inclusion of considerable material on american parties in a comparative context to the analysis of british scandinavian european canadian australian and new zealand political parties

## **Political Parties in Western Democracies**

1985-01-01

by the turn of the 1990s western democracy appeared destined to become the universal governmental norm however as we move into the new millennium there are growing signs that extremism is far from dead in recent years the extreme right has gathered notable support in many western countries such as austria france and italy racist violence initially aimed at immigrants is on the rise and in the us and increasingly in europe the state itself has become a major target this book considers the varying trajectories of the extreme right and populist parties and focuses on the problems of responses to these trends an issue which has hitherto been neglected in academic literature

## ***Citizen Politics in Western Democracies***

1988

political conflict in western democracies has traditionally emerged from politics rooted in competing ideologies and interests with the rise of politics of identity political conflict is morphing as political parties align themselves with identities rather than ideologies or interests

---

## Political Parties in Western Democracies

1967

this book offers a systematic exploration of the role of religion and religiosity in electoral politics in catholic protestant and religiously mixed countries across western europe and in the united states the chapters approach the relationship between religion religiosity and electoral behaviour from a variety of different angles they include analyses of secularization trends comparative studies of the links between vote choice and religiosity longitudinal single country studies and a novel discussion of the theoretical underpinnings of the politicization of religion that provides a radically new framework for the analysis of the role of religiosity in election studies the volume shows that despite the expectations of secularization theory religiosity remains relevant when casting votes it also argues that the traditional notion of religious cleavage should be replaced with the more accurate idea of religious voting chapters draw on national election studies data and comparative datasets such as european values studies evs european social surveys ess and european election studies ees to empirically test expectations regarding religious voting the results show that variations in religious voting are conditional on both the agency of political and ecclesiastical leaders when politicizing religious issues and the legacies of previous societal and political religious conflicts regardless of whether the original party system had a predominant religious cleavage

## Political Parties in Western Democracies

1980

the european values study is a large scale cross national and longitudinal survey research program on basic human values initiated by the european value systems study group evssg in the late 1970s at that time an informal grouping of academics now it is carried on in the setting of a foundation using the abbreviated name of the group european values study evs the evssg aimed at designing and conducting a major empirical study of the moral and social values underlying european social and political institutions and governing conduct a rich academic literature has now been created around the original survey and numerous other works have made use of the findings

## *The Role of the Legislature in Western Democracies*

1981

western democracy is being questioned around the world at the same time western aid groups are quick to say that they are not trying to impose a particular style of democracy on others and that they are open to supporting local alternative forms of democracy this book examines what it is about western democracy that non westerners are reacting negatively to and

whether the critics often are equating a dislike for certain western social or economic features with an aversion to of western political systems it also explores the current state of debate about alternative forms of democratic practice in different regions asia africa the middle east and latin america and then puts forward ideas about how western actors engaged in democracy support can do a better job of incorporating new thinking about alternative democratic forms into their efforts

## Citizen Politics in Western Democracies

1995-02-01

upturning the typical view of turkey s democratic trajectory as a product of authoritarian assault or unfortunate circumstances this book argues that the akp first elected in 2002 has consistently advanced a narrative of democracy as the work of an elite working for the national will beginning with an analysis of the historical processes that led to the akp s rise at the beginning of the 21st century the book then focuses on the akp since 2002 though turkey s democratic transition was originally characterised by western co operation the author outlines the gradual deterioration of these relations since the 2010s as well as the decline of political rights freedom of expression and the rule of law however bringing in theoretical perspectives of democracy it is argued that the akp has adopted an alternative definition based on the national will throughout its rule resistant to the western essentialist view as such the akp s story highlights that the root of this crisis lies within democracy itself the book will appeal to historians and analysts of turkish politics as well as to political scientists interested in theories of democracy moreover for those interested in the global contemporary crisis of democracy the book provides an important case study

## Political Action

1979

this book with theoretical and practical analyses of comparative political systems of eastern countries asia and africa their political process and political cultures describes and analyses the influence of political culture on political process in the eastern world it gives readers an opportunity to make a comparative appraisal of maturity of civil society in these countries as well as their specifics in political interactions and internal political competition seen through the eyes of a group of distinguished russian researchers the book concentrates also on specifics of political economic and political modernization in the east and assesses the prospects of an emergence of a western as well as a non western democracy in the framework of eastern political transformations it also explains why the one dimensional spread of democracy completely negating or neglecting regional political cultural specifics may lead to war among civilizations instead of the formation of a more just and fair system of democratic governance

## **Balancing Work and Solidarity in the Western Democracies**

2010

with contributions by more than thirty of the world's leading scholars of democracy this volume presents the most comprehensive assessment available of the state of democracy in the world at the beginning of the new millennium

## ***Families of Nations***

1993

in uneasy partnership at the helm of the modern state stand elected party politicians and professional bureaucrats this book is the first comprehensive comparison of these two powerful elites in seven countries the united states great britain france germany sweden italy and the netherlands researchers questioned 700 bureaucrats and 600 politicians in an effort to understand how their aims attitudes and ambitions differ within cultural settings one of the authors most significant findings is that the worlds of these two elites overlap much more in the united states than in europe but throughout the west bureaucrats and politicians each wear special blinders and each have special virtues in a well ordered polity the authors conclude politicians articulate society's dreams and bureaucrats bring them gingerly to earth

## **Catholics in Western Democracies**

1981-01-01

a comparative survey which discusses how national leaders in six western democracies australia canada france germany great britain and the united states are nominated for the highest office in their country the combinations of methods each country utilizes to nominate their leaders are described the text emphasizes that most national leaders have served a long apprenticeship in various public offices sometimes having made several attempts before actually being nominated to the nation's highest public office increasingly the text shows that opinion polls television and professional campaign management are playing a greater role in the leadership selection process in all six countries this book will be of interest to upper level college and graduate students and faculty in comparative government political parties and public affairs and academic as well as public libraries

related to elections and introduces important work on key new areas comparing democracies third edition will remain a must read for students and lecturers of elections and voting behaviour comparative politics parties and democracy contents introduction building and sustaining democracy lawrence leduc richard g niemi and pippa norris part i electoral institutions and processes electoral systems and election management elisabeth carter and david m farrell political parties and party systems susan e scarrow party and campaign finance ingrid van biezen election campaigns christopher wlezien campaign communications and media claes h de vrees part ii public opinion and voting ideology partisanship and democratic development russell j dalton political participation andré blais elections and the economy timothy hellwig women and elections marian sawer conclusion the consequences of elections g bingham powell

## The Changing Basis of Political Conflict in Advanced Western Democracies

2023-07-06

## *Is Non-western Democracy Possible?: A Russian Perspective*

2001-09-19

over the past half century western democracies have lead efforts to entrench the economic and political values of liberal democracy into the foundations of european and international public order as this book details the relationship between the media and the state has been at the heart of those efforts in that relationship often framed in constitutional principles the liberal democratic state has celebrated the liberty to publish information and entertainment content while also forcefully setting the limits for harmful or offensive expression it is thus a relationship rooted in the state s need for security authority and legitimacy as much as liberalism s powerful arguments for economic and political freedom in europe this long running endeavour has yielded a market based liberal democratic regional order that has profound consequences for media law and policy in the member states this book examines the economic and human rights aspects of european media law which is not only comparatively coherent but also increasingly restrictive rejecting alternatives that are well within the traditions of liberalism parallel efforts in the international sphere have been markedly less successful in international media law the division between trade and human rights remains largely unabridged and in the latter field liberal democratic concepts of free speech are influential but rarely decisive in the international sphere states are moreover quick to assert their rights to autonomy nonetheless the current communications revolution has overturned fundamental assumptions about the media and the state around the world eroding the boundaries between domestic and foreign media as well as mass and personal communication european and international media law sets legal and policy developments in the context of this fast changing globalized media and communications sector

## **The Global Divergence of Democracies**

1981-10-21

knott observes that thomas jefferson and his followers and later andrew jackson and his adherents tended to view hamilton and his principles as un-american while his policies generated mistrust in the south and the west where he is still seen as the founding plutocrat hamilton was revered in new england and parts of the mid atlantic states hamilton s image as a champion of american nationalism caused his reputation to soar during the civil war at least in the north however in the wake of gilded age excesses progressive and populist political leaders branded hamilton as the patron saint of wall street and his reputation began to disintegrate book jacket
