the cave portuguese a caverna is a novel by portuguese author José Saramago who received the Nobel Prize in 1998. It was published in Portuguese in 2000 and in English in 2002. Plot: The story concerns an elderly potter named Cipriano Algor, his daughter Marta, and his son-in-law Marçal. Nobel laureate José Saramago's *The Cave* is an enlightening examination of Plato's allegory of the cave as he depicts a natural world shrinking away as the cheap plastic reign of a compartmentalized authoritative control casts its shadow across the land. When mysterious sounds of digging emerge from beneath their new apartment, Cipriano and Marçal investigate what they find, transforming the family's life. Filled with depth, humor, and extraordinary philosophical richness that marks each of Saramago's novels, *The Cave* is one of the essential books of our time. *The Cave* by José Saramago is a thought-provoking and philosophical novel that explores the themes of identity, consumerism, and the power of language. Set in an unnamed country, the story follows the life of Cipriano Algor, an elderly potter who is forced to confront the changing world around him. *The Cave* by José Saramago, translated by Margaret Jull Costa, release date Nov 1, 2002. We'll say it again: Saramago is the finest living novelist bar none. When mysterious sounds of digging emerge from beneath their new apartment, Cipriano and Marçal investigate what they find, transforming the family's life in a novel that is both irrepressibly funny, the *Christian Science Monitor* and a triumph, the *Washington Post*. *The Cave* by José Saramago, Vintage, 2003, fiction, 294 pages. Cipriano Algor, an elderly potter, lives with his daughter Marta and her husband Marçal in a small village on the outskirts of the center. An imposing complex of shops, apartments, and offices to which Cipriano delivers his pots and jugs every month, but Saramago makes up for the brief, slow stretch with a stunning ending after the doll project crashes when Algor becomes a resident of the center and finds a shocking surprise in a cave unearthed beneath it. The story of *The Cave* is sufficiently interesting to keep the reader involved, but Saramago tells it at a snail's pace. He begins with an overly detailed description of the potter's delivery route to the center. English, 294 pages, 22 cm. Cipriano Algor, an ageing potter, lives with his daughter in the shadow of the centre, a nebulous megaplex that provides his livelihood until it haughtily decrees it is no longer interested in his humble wares. Access restricted. Item true in his newest novel, *The Cave*. Nobel laureate José Saramago draws upon Plato's image to make a cynical commentary on modern society. Unhindered by periods, paragraphs, or quotation marks, Saramago's prose consists of wry observation and rapid-fire dialogue that more closely resembles a stream of consciousness than a typical novel.
