popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better this is a real life story you will read and get an in depth look of my childhood family my teen years the years i spent in the service running a business and all the good and bad in my life that i had clear up till i had lost it where i was put in the hospital and then diagnosed with bipolar affective disorder schizo affective disorder it all started forty days before easter of 2006 having visions or insights into the bible while making a new law for the people also having vibes and connections with spirits that allowed me to believe that the end of the world was upon us this true life story takes you on a journey which is believed to have come from god during the second part of the story i fight against evil or satan himself which makes me believe that i may possibly be the antichrist if i dont do the right thing in order to save the world i would tell people that im the chosen onejesus christ the second coming the messiah the son of god or even the lamb of god the simple truth is that we ve lost control of our own borders and no nation can do that and survive ronald reagan america is under siege facing a hostile invasion on its own soil that most of its citizens know nothing about the invaders are illegal immigrants their battleground is the u s mexico border and what s at stake is the money security and freedom of all americans in this chilling exposé investigative journalist jon dougherty contends that today s unchecked immigration is destroying the very fabric of our culture and endangering american lives with alarming new evidence dougherty argues that illegal immigrants are brazenly turning america s welcome mat into a doormat and our reckless policies and lackluster restrictions are allowing criminals drug lords and even terrorists to take advantage of our freedoms if 9 11 can t get us to secure our borders says dougherty nothing will featuring compelling real life accounts from the people who engage in the battle on the border every day border patrol agents local residents and citizen enforcement groups this book shows definitively how illegal immigration costs taxpayers greatly and threatens the lives of all americans native born and otherwise it also proves once and for all that our government is doing nothing to stop this ever growing crisis this is the untold unnerving story of life on the u s mexico border how illegal immigration is quickly making us all strangers in our own country a high velocity political thriller from a gifted first time novelist follows the hunt for a videotape that terrifyingly reveals washington s deadliest secret the shocking identity of the vice president s assassin first there is the bullet the bullet fired from the rifle of one of the world s most elusive assassins second there is the body the body of the vice president of the united states finally there is the secret a secret poised to wreak chaos so potent as to bring the highest powers of government to their knees welcome to the high stakes world of the greater good a heart pounding lightning paced suspense novel that boldly marks the arrival of a singular new writing talent casey moreton hours before an assassin s bullet rips through his bedroom window vice president james ettinger makes an explosive confession on videotape when the smoke clears in the aftermath of the assassination the tape has vanished and the race is on from the dizzying heights of washington insider power to the subterranean realm of win at all costs political maneuvering the quest to find the mysterious videotape snatches readers up in a relentless whirlwind of espionage brutal policy warfare and the intricate machinations of no holds barred power brokering only one thing is clear those responsible for ettinger s death will stop at nothing to make sure his final words are never heard putting his crew of engaging multidimensional characters through their paces as they negotiate a treacherous political maze novelist casey moreton proves himself a natural storyteller with seemingly unlimited surprises up his sleeve welcome to connor my hometown is a novel about a small town in ohio and more importantly its various people their lives loves failures and successes and their interactions with one another it employs a device first seen in thornton wilder s our town whereas in that play the stage manager would talk to the audience several times throughout the play in this case the town s editor of the connor gazette speaks to the reader he himself is one of the strongest characters in the novel and his love of the town and its people becomes readily apparent there is romance jenna owner of the chit chat cafe which is the public gathering place for many of the town s locals meets brian an engineer and contract specialist from sedwick electronics and they fall in love and get married both of them are in their mid thirties pastor barry yoder and his wife sherry are among the most beloved of the town s inhabitants and they minister to the people they come alongside a couple who have separated and help restore the lost love from their marriage jim and bessie benson are loved by everyone he owns the town s marathon gas station and bessie makes the best pies in the town but she finds out she has cancer and the whole town comes together and prays for her there is miss ruth hennessey principal of marshall middle school who is a no nonsense woman on the outside but has a heart of gold on the inside there s jim morrison general contractor and randy colthirst the town s

dentist all three hang out nearly every weekday at the chit chat café and their interactions and banter make for some lively discussions and that's what makes the chit chat cafe seem more like a home than a restaurant there are many more memorable characters including the mayor police chief fire chief other pastors you will grow to love the town and its people the editor who used to be a columnist for a major chicago newspaper for twenty years brings it all together i would love to live in connor myself hurricane ike wiped out the entire bolivar peninsula of galveston county texas leaving a mere bomb explosion effect on the community it took over two week before residents were allowed onto their ravished properties to see the horrendous destruction it was a nightmare to all that returned there are stories of our residents that stayed during the storm thinking it was only a category 2 hurricane this book is dedicated to the stories that we will never hear and to all of the survival stories that we are thankful that we do have the residents of the bolivar peninsula texas went through a life time experience with hurricane ike on september 13 2008 hurricane ike ravished the entire bolivar peninsula texas it left the peninsula bare as if a bomb had exploded the entire gulf of mexico churned with winds reaching 275 miles from the eye the gulf side of florida witnessed miles of beaches as the ocean was entirely submerging the bolivar peninsula in texas the residents of the peninsula have our own unique stories and memories to share through each of our individual eyes we lived through the unbelievable the unknowing the destruction the loss the love the spiritual and the comeback these are our stories as our entire lives changed within a blink of an eye now in paperback with a new foreword by fred krupp an expert's illuminating preview of the cleaner lighter smarter cars of the future in driving the future margo t oge portrays a future where clean intelligent vehicles with lighter frames and alternative power trains will produce zero emissions and run at 100 mpg with electronic architectures more like those of airplanes cars will be smarter and safer will park themselves and will network with other vehicles on the road to drive themselves as the director of the epa's office of transportation and air quality oge was the chief architect behind the obama administration's landmark 2012 deal with automakers in the us market to double the fuel efficiency of their fleets and to cut greenhouse gas emissions in half by 2025 this was america's first formal climate action using regulation to reduce emissions through innovation in car design offering an insider account of the partnership between federal agencies california environmental groups and car manufacturers that led to the historic deal margo discusses the science of climate change the politics of addressing it and the lessons learned for policy makers she also takes the reader through the convergence of macro trends that will drive this innovation over the next forty years and be every bit as transformative as those wrought by karl benz and henry ford driving the future is for anyone who wants to know what car they'll be driving in ten twenty or thirty years and for everyone concerned about air quality and climate change now
