1406 2661 generative adversarial networks arxiv org Mar 30 2024 年月日 2014年6月10日   we propose a new framework for estimating generative models via an adversarial process in which we simultaneously train two models a generative model g that captures the data distribution and a discriminative model d that estimates the probability that a sample came from the training data rather than g

1409 1556 very deep convolutional networks for large Feb 27 2024 年月日 2014年9月4日   very deep convolutional networks for large scale image recognition karen simonyan andrew zisserman in this work we investigate the effect of the convolutional network depth on its accuracy in the large scale image recognition setting

generative adversarial nets neurips Jan 28 2024 年月日 we propose a new generative model 1 estimation procedure that sidesteps these difficulties in the proposed adversarial nets framework the generative model is pitted against an adversary a discriminative model that learns to determine whether a sample is from the model distribution or the data distribution
