Lower Manhattan Dress Rehearsal for the 1980 Census

1979

during my lifetime i noted that people particularly men love to tell stories about their life experiences if you know a fireman or policeman well enough you know that they can entertain for hours by relating their on the job experiences even mundane occupations are settings for good stories having worked at a telephone company for thirty two years i had my share of experiences i share them with my friends and family sooner or later someone suggested writing a book not a classic but rather one of those bathroom novels loaded with short stories thats what you will find here however bizarre they are all true of course the names were changed to protect my buddies and me who did and said some incredibly stupid and sometimes dangerous things in some cases the company policies and procedures i write about may not be depicted as they actually were ive attempted to depict them as the field foremen technicians and i perceived them you will have many laughs and more than a few ive been there moments along the way the telephone company wasnt my whole life so i threw in a few personal and family stories along the way hopefully between work and home these stories will give you background on the real telephone company and also a seemingly directionless individual who was successful because of both

Research in Education

1973

for a quarter of a century the council for responsible genetics has provided a unique historical lens into the modern history science ethics and politics of genetic technologies since 1983 the council has had leading scientists activists science writers and public health advocates researching and reporting on a broad spectrum of issues including genetically engineered foods biological weapons genetic privacy and discrimination reproductive technologies and human cloning biotechnology in our lives examines how these issues affect us daily whether we realize it or not written for the nonscientist it looks at the many applications of genetics on the world around us by posing questions such as what should we know about genetics and childbirth can our genes keep us from qualifying for health insurance can gene therapy cure cancer is behavior genetically determined why would the fbi want our genes are foreign genes in our food and much more ultimately this definitive book on the subject also encourages us to think about the social environmental and moral ramifications of where this technology is taking us
