two works in one this volume contains the full text of with her in ourland by charlotte perkins gilman as well as an illuminating sociological analysis by mary jo deegan with the assistance of michael r hill ourland is the sequel to gilman s acclaimed feminist utopian novel herland both were published in her journal the forerunner in 1915 and 1916 ourland resumes the adventures of iherland r s protagonists ellador and van but turns from utopian fantasy to a challenging analysis of contemporary social fissures in his land or the real world the republication of herland as a separate novel in 1979 revived critical interest in gilman s work but truncated the larger aims implicit in the iherland ourland r saga leaving an erroneous understanding of gilman s other better half of the story in which it is suggested that strong women can resocialize men to be nurturant and cooperative gilman s choice of a sexually integrated society in with her in ourland provides us with her answer to her ideal society but her foray into a woman only society as a corrective to a male dominated one is a controversial option the challenging message of ourland however does not impede the pleasure of reading it as a novel though known more for her fiction today gilman in her time was a recognized and accomplished sociologist who admired lester f ward and frequently visited jane addams of chicago s hull house the male protagonist in herland ourland van is a sociologist used by gilman as a foil on which to skewer the assumptions and practices of patriarchal sociology the interpretation presented here which adopts a sociological viewpoint is invaluable reading for scholars and students of sociology american women s studies and utopian literature
