the essays in this collection address the relationship between children and cultural memory in texts both for and about young people the collection overall is concerned with how cultural memory is shaped contested forgotten recovered and re-circulated sometimes in opposition to dominant national narratives and often for the benefit of young readers who are assumed not to possess any prior cultural memory from the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts including film poetry literature and architecture from canada the united states japan germany britain india and spain these cultural forms collaborate to shape ideas and values in turn contributing to dominant discourses about national and global citizenship the essays included in the collection imply that childhood is an oft imagined idealist construction based in large part on participation identity and perception childhood is invisible and tangible exciting and intriguing and at times elusive even as cultural and literary artifacts recreate it children and cultural memory in texts of childhood is a valuable resource for scholars of children's literature and culture readers interested in childhood and ideology and those working in the fields of diaspora and postcolonial studies

this collection of essays searches for how history and literature translate into filmic texts that then reflect the time and place of the translation major motion pictures as well as television movies and series are the sites of this exploration the opening essay surveys what films tell us it means to be set in a medieval time while the second looks at one of the most powerful movie studios since the earliest days of movie making walt disney studios the second section investigates classic americana by delving specifically into the hegemonic power of walt disney studios by considering the union between the american pastime of baseball and the great white way of broadway and by discovering the constantly morphing relationship of the icons of the wild west section three looks at characters living outside of roles considered socially appropriate in their world vampire slayers mobsters and those with multiple personalities the fourth section studies how present day mores of power and beauty control revisions of historically based stories through issues of vengeance race sexuality and the notion of beauty itself the final section takes up the question of what it means to historicize the present moment and analyzes the current period via a very popular and long running show's depiction of sexuality as accepted or rejected within a paradigm that appears not merely to tolerate but actively to promote deviance the last essay questions the very concepts of time and history themselves the articles do not reach one conclusion regarding this topic but instead provide a variety of perspectives which help to theorize the issue for the discerning reader

seminar paper from the year 2010 in the subject english language and literature studies literature grade 100 university of bayreuth language english abstract there scarce exists a work so popular as robinson crusoe it is read eagerly by young people and there is hardly an elf so devoid of imagination as not to have supposed for himself a solitary island in which he could act robinson crusoe were it but in the corner of the nursery ballantyne 7 with these words john ballantyne reinstates robinson crusoe 1719 as a novel appealing to younger readers

in his essay about daniel de foe sic published in 1810 and indeed although the implicit reader of the first novel in english literature was not specifically mentioned to be of young age children have been its principal readers throughout the last 300 years lundin 199 thus it is not surprising that novels also popular with a younger audience such as treasure island by robert louis stevenson resemble the famous castaway narrative by repeating its main topics and motifs like the solitary island and the shipwreck green 143 one of the more recent adaptations of robinson crusoe is terry pratchett s nation published in 2008 taking place on a south sea island in a skewed version of the 19th century boyce the story centers around the cultural encounter of the shipwrecked adolescent daughter of a british colonial governor called daphne with an indigenous boy named mau whose whole nation was obliterated by a tsunami whereas robinson crusoe can be clearly considered to be an imperialist and racist novel with its protagonist becoming the true symbol of the british conquest as james joyce puts it in his essay about daniel defoe in 1912 joyce 10 pratchett s book has been appraised by critics as a novel of ideas a ferocious questioning of vested cultural attitudes and beliefs dirda and said to reveal the stupidity of ignorance and prejudices i e concerning race tucker but taking claire bradford s warning into account that contemporary children s literature dealing with cultural difference is not necessarily free of the ideological freight of those earlier times i e colonialist discourse bradford 48 my research paper will look at terry pratchett s nation in detail with a theoretical approach based on postcolonial theory and critical whiteness studies this postmodern version of daniel defoe s novel will be analyzed with special regard to its concepts of race gender and culture

science fantasy blends science fiction and fantasy so it tends to be bolder and more highly colored than pure science fiction in the middle of the last century the british magazine science fantasy created its own distinctive strains of fantasy narrative most famously by such writers as brian w aldiss j g ballard john brunner michael moorcock and thomas burnett swann among others this book looks closely at the whole trajectory of that lost magazine from its birth in 1950 through 1967 when it was briefly called sf impulse john boston provides a brilliantly insightful and often every funny account of the rise evolution and final fall of science fantasy its writers and its quirky editors boston is joined by writer and critic damien broderick adding his own waspish and nostalgic comments this volume the first of three dealing with the history and development of the major british sf magazines is a compelling
