Mōtā fan 1990-09

2019-02-19 this book focuses on the small car segment of india s automotive industry to explain the emergence of lead markets the authors contend that the current understanding of lead markets does not sufficiently explain the business practices that are born out of the intensified globalization of innovation lead markets are considered crucial for the global diffusion of new products and this book investigates whether sustainable lead markets can also emerge in developing economies and if so under which conditions the authors question the conventional wisdom and propose updates and extensions to the lead market theory to better reflect the changing ground realities on ground

Autonomous Vehicles Plus 2001 infoworld is targeted to senior it professionals content is segmented into channels and topic centers infoworld also celebrates people companies and projects

1992 beginning in 1985 one section is devoted to a special topic
