a widely read classic exposition of the history of africans on the continent and the people of african descent in the united states and in the diaspora this well researched analysis details the development of civilization in africa the destruction of black civilization took chancellor williams sixteen years of research and field study to compile the book which was to serve as a reinterpretation of the history of the african race was intended to be a general rebellion against the subtle message from even the most liberal white authors and their negro disciples you belong to a race of nobodies you have no worthwhile history to point to with pride the book was written at a time when many black students educators and scholars were starting to piece together the connection between the way their history was taught and the way they were perceived by others and by themselves they began to question assumptions made about their history and took it upon themselves to create a new body of historical research the book is premised on the question if the blacks were among the very first builders of civilization and their land the birthplace of civilization what has happened to them that has left them since then at the bottom of world society precisely what happened the caucasian answer is simple and well known the blacks have always been at the bottom williams instead contends that many elements nature imperialism and stolen legacies have aided in the destruction of the black civilization the destruction of black civilization is revelatory and revolutionary because it offers a new approach to

the research teaching and study of african history by shifting the main focus from the history of arabs and europeans in africa to the africans themselves offering instead a history of blacks that is a history of blacks because only from history can we learn what our strengths were and especially in what particular aspect we are weak and vulnerable our history can then become at once the foundation and guiding light for united efforts in seriously planning what we should be about now it was part of the evolution of the black revolution that took place in the 1970s as the focus shifted from politics to matters of the mind this publication moves the discussion beyond the vagueness of ethnicity to the reality of african empowerment archetypal grief slavery's legacy of intergenerational child loss is a powerful exploration of the intergenerational psychological effects of child loss as experienced by women held in slavery in the americas and of its ongoing effects in contemporary society it presents the concept of archetypal grief in african american women cultural trauma so deeply wounding that it spans generations calling on jungian psychology as well as neuroscience and attachment theory fanny brewster explores the psychological lives of enslaved women using their own narratives and those of their descendants and discusses the stories of mothering slaves with reference to their physical and emotional experiences the broader context of slavery and the conditions leading to the development of archetypal grief are examined with topics including the visibility invisibility of the african female body the archetype of the mother stereotypes about black women and the significance of rites of passage the discussion is placed in the context of contemporary america and the economic educational spiritual and political legacy of slavery archetypal grief will be an important work for academics and students of jungian and post jungian studies archetypal and depth psychology archetypal studies feminine psychology women's studies the history of slavery african american history african diaspora studies and sociology it will

Archetypal Grief: A Jungian and Post-Jungian Study of the African Female Body, Motherhood, and Rites of Passage in Contemporary America. This work explores the intersection of archetypal and depth psychology with the history of slavery, African American history, and African diaspora studies. It examines the visibility and invisibility of the African female body, stereotypes about Black women, and the significance of rites of passage. The discussion is set within the context of contemporary America, addressing the economic, educational, spiritual, and political legacies of slavery. This book is a valuable resource for academics and students in Jungian and post-Jungian studies, archetypal and depth psychology, archetypal studies, feminine psychology, women's studies, the history of slavery, African American history, African diaspora studies, and sociology. It is also of interest to analytical psychologists and Jungian psychotherapists in practice and in training.
