good work balancer i frowned at the title all i did was transport her here raile yes so you did he agreed in a tone that clearly didn t agree with me at all perhaps you don t consciously realize this garth but its little things like this that are restoring balance to chahir no task can be done in just one stroke of effort it takes many strokes and much sustained effort he s right i started reviewing all of the things i had done over the past two years memories flicking through my head almost too fast to follow each choice led to another my choice to leave my home in tobadorage and seek refuge in hain led directly to my actions now bringing a queen into exile and each choice each action on my part had started the chain reaction that was bringing magic back into chahir there was a time when magic was welcome in the country of chahir but that was nearly two centuries ago now all forms of magic are strictly forbidden anyone caught using magic or possessing magical abilities are immediately imprisoned and executed for garth that policy is a problem as garth approaches his sixteenth birthday he realizes that he definitely has magical abilities what s worse he has no control over them in order to stay alive he only has one choice he must leave his homeland chahir and flee into the neighboring country hain the journey isn t an easy one he still has to make it out of chahir without alerting anyone as to his abilities what garth doesn t know is that getting to hain and the academy for all magic is going to be the easy part garth goes into hain for one reason only he wants training for his out of control magical powers so how does he become a member of an exclusive magical clan known as the jaunten adopted by a magically enhanced colt best friends with a gifted witch and foster brother of a four year old mage let s just say he has a gift for finding trouble good work balancer i frowned at the title all i did was transport her here raile yes so you did he agreed in in this work jobling argues that religious sensibility in the western world is in a process of transformation but that we see here change not decline and that the production and consumption of the fantastic in popular culture offers an illuminating window onto spiritual trends and conditions she examines four major examples of the fantastic genre the harry potter series rowling his dark materials pullman buffy the vampire slayer whedon and the earthsea cycle le guin demonstrating that the spiritual universes of these four iconic examples of the fantastic are actually marked by profoundly modernistic assumptions raising the question of just how contemporary spiritualities often deemed postmodern navigate philosophically the waters of truth morality authority selfhood and the divine jobling tackles what she sees as a misplaced disregard for the significance of the fantasy genre as a worthy object for academic investigation by offering a full length thematic comparative and cross disciplinary study of the four case studies proposed chosen because of their significance to the field and because these books have all been posited as exemplars of a postmodern religious sensibility this work shows how attentiveness to spiritual themes in cultural icons can offer the student of theology and religions insight into the framing of the moral and religious imagination in the late twentieth and twenty first centuries and how this can prompt traditional religions to reflect on whether their own narratives are culturally framed in a way resonating with the signs of the times
