modernism in irish women s contemporary writing examines the tangled relationship between contemporary irish women writers and literary modernism in the early decades of the twenty first century irish women s fiction has drawn widespread critical acclaim and commercial success with a surprising number of these works being commended for their innovative redeployment of literary tactics drawn from early twentieth century literary modernism but this strategy is not a new one across more than a century writers from kate o brien to sally rooney have manipulated and remade modernism to draw attention to the vexed nature of female privacy exploring what unfolds when the amorphous nature of private consciousness bumps up against external ordering structures in the public world living amid the tenaciously conservative imperatives of church and state in ireland their female characters are seen to embrace reject and rework the ritual of prayer the fixity of material objects the networks of the digital world and the ordered narrative of the book such structures provide a stability that is valuable and even necessary for such characters to flourish as well as an instrument of containment or repression that threatens to and in some cases does destroy them the writers studied here among them elizabeth bowen edna o brien anne enright anna burns claire louise bennett and eimear mcbride employ the modernist mode in part to urge readers to recognize that female interiority the prompt for many of the movement s illustrious formal experiments continues to provide a crucial but often overlooked mechanism to imagine ways around and through seemingly intransigent social problems such as class inequity political violence and sexual abuse

in this full length study of the 1913 paterson silk strike steve golin examines the creative collaboration between the silk workers organizers from the industrial
 workers of the world and greenwich village intellectuals although the strike was defeated this alliance could become a model for the american left because it suggests
 the possibilities of connecting economic political and cultural struggles combining perspectives from labor history social history and intellectual history golin argues
 that while the silk workers began the 1913 strike and controlled it themselves the iww helped them create institutions that supported the strike and reinforced its
 radically democratic character the deadlock in paterson dictated the need for a bridge to new york that was facilitated by a growing mutual trust between the
 wobblies and intellectuals from greenwich village at the height of the struggle the iww and the village radicals joined the workers in presenting a powerful strike
 pageant in madison square garden the story of the 1913 silk strike is important because it challenges long held conservative assumptions about labor history
 including the elitist role of skilled workers the bureaucratic function of union organization and the irrelevance of intellectuals although the strikers were ultimately
 defeated the strike s failure had more damaging consequences for the iww and the intellectuals than for the workers themselves and golin views this loss as a major
 turning point for the american left author note steve golin is professor of history at bloomfield college in new jersey

themes from science fiction fantasy and horror have been an intimate part of contemporary poetry in the united states and abroad the publishing of poetry by those
 american writers who view themselves as primarily science fiction fantasy horror writers has been less common and generally relegated to infrequent appearances in
 genre publications this has changed dramatically since the early 1970s in contemporary science fiction fantasy and horror poetry green provides evidence that there
 are in fact many opportunities for publishing such genre poetry in both commercial and small press publications contemporary science fiction fantasy and horror
 poetry includes guides to major magazines that publish this type of poetry each with an index of poets published a bibliography of major anthologies and a
 biographical directory of poets active in the three genres the book also includes an appendix of awards
