after saving alfa romeo from oblivion in 1987 it took fiat nearly five years to debut the first new alfa produced under its control this is the story of how the competition versions of the 155 156 147 family of cars were developed and subsequently raced to many championship titles and race wins together these models kept the alfa romeo name at the pinnacle of motor sport for many years from 1992 to 2006 and will become future motorsport classics in uneven encounters micol seigel chronicles the exchange of popular culture between brazil and the united states in the years between the world wars and demonstrates how that exchange affected ideas of race and nation in both countries from americans interpreting advertisements for brazilian coffee or dancing the brazilian maxixe to rio musicians embracing the foreign qualities of jazz seigel traces a lively cultural back and forth along the way she shows how race and nation for both elites and non elites are constructed together and driven by global cultural and intellectual currents as well as local regional and national ones seigel explores the circulation of images of brazilian coffee and of maxixe in the united states during the period just after the imperial expansions of the early twentieth century exoticist interpretations structured north americans paradoxical sense of themselves as productive consumer citizens some people however could not simply assume the privileges of citizenship in their struggles against racism afro descended citizens living in rio de janeiro são paulo new york and chicago encountered images and notions of each other and found them useful seigel introduces readers to cosmopolitan afro brazilians and african americans who rarely traveled far from home but who nonetheless absorbed ideas from abroad she suggests that studies comparing u s and brazilian racial identities as two distinct constructions are misconceived racial formation transcends national borders attempts to understand it where they arrived after complicated and costly travel over land and sea she shifts the attention away from collectors to peasants with shovels dealers and middlemen and restorers who unearthed cleaned up and repaired or remade objects recuperating the role these actors played in rome's socioeconomic structure furlotti also examines the changes in economic value meaning and appearance that antiquities underwent as they moved throughout their journeys and as they reached the locations in which they were displayed drawing on vast unpublished archival material she offers answers to novel
