Summary of John Mordechai Gottman, Joan DeClaire & Daniel Goleman's Raising An Emotionally Intelligent Child The Heart of Parenting 2022-03-31T22:59:00Z please note this is a companion version not the original book sample book insights 1 good parenting involves more than just intelligence it involves emotion and parents need to be aware of their children s feelings and be able to empathize with them 2 emotion coaching is the act of helping your child deal with life s ups and downs it involves accepting your child s negative emotions and teaching them important life lessons and building closer relationships with them 3 the emotion coaching parent may seem like a dismissing parent at first because they directed joshua to think about something other than staying home but there is a crucial distinction as an emotion coach diane acknowledged her son s sadness helped him name it allowed him to experience his feelings and stayed with him while he cried 4 the process of emotion coaching involves five steps for parents becoming aware of the child s emotion recognizing the emotion as an opportunity for intimacy and teaching listening empathetically validating the child s feelings and setting limits while exploring strategies to solve the problem
