site cyndislist com offer well organized access to genealogy sites online many researchers still want to plan searches with a book in hand now howells netting your ancestors has created a print version with some exceptions of her web site including over 100 categories and over 40 000 links most with brief annotations this book has something for nearly any genealogy related topic that comes to mind schaefer s instant information series offers pared down compilations of basic information search sites her book on the united states categorizes web sites by state and includes vital records information sites prominent research libraries and societies indexes and databases and general information sites in the british isles book schaefer discusses british counties and expands her lists to include major sites for churches and the celtic language as well as a place name index all three books provide easy access to useful genealogy sites while howells strives for exhaustive coverage of genealogy links schaefer offers very general site lists though howells s book comes with
