every day i am amazed at the creations of god when you look all around you see the massive lakes and oceans how the trees shed their leaves in the fall and come back green as ever in the spring and how the sky changes from a vibrant blue filled with white clouds to a dark grey torn by thunder and lightning i m just amazed at how we as human beings change over time and how at any moment we can be here and then gone just like that we take life for granted we don t think of each second as a precious moment to treasure and to use for god s glory so that we become pleasing in his sight we all need encouraging words while some of us need a little push we all definitely need to learn how to press through the obstacles that are set before us this christian walk is not all bad times and it is not all good in this circle of life you will come to know that we all have up days and down days and god is trying to teach us valuable lessons through them all we have faults inside that god is trying to purge but we must remember that this walk is not in vain and we must learn how to focus on jesus to everything there is a season a time for every purpose under heaven a time
