Experiencing Nature

1997-04-30

this volume honoring the renowned historian of science allen g debus explores ideas of science experiences of nature from within a historiographical tradition that debus has done much to define as his work shows the sciences do not develop exclusively as a result of a progressive and inexorable logic of discovery a wide variety of extra scientific factors deriving from changing intellectual contexts and differing social milieus play crucial roles in the overall development of scientific thought these essays represent case studies in a broad range of scientific settings from sixteenth century astronomy and medicine through nineteenth century biology and mathematics to the social sciences in the twentieth century that show the impact of both social settings and the cross fertilization of ideas on the formation of science aimed at a general audience interested in the history of science this book closes with debus's personal perspective on the development of the field audience this book will appeal especially to historians of science of chemistry and of medicine

reading a wide range of novels from post war germany to israeli palestinian and postcolonial writers the politics of jewishness in contemporary world literature is a comprehensive exploration of changing cultural perceptions of jewishness in contemporary writing examining how representations of jewishness in contemporary fiction have wrestled with such topics as the holocaust israeli palestinian relations and jewish diaspora experiences isabelle hesse demonstrates the colonial turn taken by these representations since the founding of the jewish state following the dynamics of this turn the book demonstrates new ways of questioning received ideas about victimhood and power in contemporary discussions of postcolonialism and world literature

The Politics of Jewishness in Contemporary World Literature

2016-02-11

from the horrific to the heroic cinematic werewolves are metaphors for our savage nature symbolizing the secret bestial side of humanity that hides beneath our civilized veneer examining acknowledged classics like the wolf man 1941 and the howling 1981 as well as overlooked gems like dog soldiers 2011 this comprehensive filmography covers the highs and lows of the genre information is provided on production cast and filmmakers along with critical discussion of the tropes and underlying themes that make the werewolf a terrifying but fascinating figure

The Werewolf Filmography

2017-02-06

this volume consists of previously published articles by frances young a scholar of early christianity well known for her work biblical exegesis and the formation of christian culture together with a few newly composed additions the studies collected here are concerned with the new testament but their approach is often not in the modern historico critical mode rather they bring new insight through being informed by the author s patristic specialism by methodological enquiries by her interest in doctrinal and theological reading and by exploration of the very nature and function of sacred scriptures the significance of this volume lies in the

way it exemplifies the extraordinarily interesting changes which have taken place in biblical hermeneutics during the last 50 60 years many of the essays could be useful not only to research specialists but to advanced undergraduates as well as clergy and preachers

from a brilliant brookings institution expert an important the wall street journal and penetrating historical and political study nature of the critical role that oceans play in the daily struggle for global power in the bestselling tradition of robert kaplan s the revenge of geography for centuries oceans were the chessboard on which empires battled for supremacy but in the nuclear age air power and missile systems dominated our worries about security and for the united states the economy was

largely driven by domestic production with trucking and railways that crisscrossed the continent serving as the primary modes of commercial transit all that has changed as nine tenths of global commerce and the bulk of energy trade is today linked to sea based flows a brightly painted forty foot steel shipping container loaded in asia with twenty tons of goods may arrive literally anywhere else in the world how that really happens and who actually profits from it show that the struggle for power on the seas is a critical issue today now in vivid closely observed prose bruce jones conducts us on a fascinating voyage through the great modern ports and naval bases from the vast container ports of hong kong and shanghai to the vital naval base of the american seventh fleet in hawaii to the sophisticated security arrangements in the port of new york along the way the book illustrates how global commerce works that we are amidst a global naval arms race and why the oceans are so crucial to america s standing going forward as jones reveals the three great geopolitical struggles of our time for military power for economic dominance and over our changing climate are playing out atop within and below the world s oceans the essential question he shows is this who will rule the waves and set the terms of the world to come

Pandora's Box

2020-05-05

these historical narratives of scientific behavior reveal the often irrational way scientists arrive at and assess their theories there are stories of einstein s stubbornness leading him to reject a correct interpretation of an experiment and miss an important deduction from his own theory and newton missing the important deduction from one of his most celebrated discoveries this enlightening book clearly demonstrates that the greatest minds throughout history arrived at their famous scientific theories in very unorganized ways and they often did not fully grasp the significance and implications of their own work

To Rule the Waves

2021-09-14

werner g jeanrond approaches hope from the perspective of a theology of love he distinguishes human hopes from the hope which god has given to humanity jeanrond discusses the challenges of a christian praxis of hope in today s world and invites both a new conversation on a future with god and a reassessment of the potential of hope for christian discipleship jeanrond argues that memory is important for hope and that nobody can hope for herself or himself alone hope thus invites personal communal political and global participation and transformation moreover it gives rise to a powerful constellation of symbolic expressions including judgement heaven hell and purgatory that call for ongoing interpretation ranging from radical hope and the hope for salvation to the power of judgment and contemporary fears about the future of nations humankind and the world jeanrond s latest work offers a theological contribution to the multireligious conversation on

the book presents a radically new framework for understanding capital as a mode of power challenging the liberal and marxist approaches it articulates a new theory of accumulation develops new empirical methods of research and offers a new history of capitalism

Showing Mary

2008-12-14

emerging from two decades of the great depression and the new deal and facing the rise of radical ideologies abroad the american right seemed beaten broken and adrift in the early 1950s although conservative luminaries such as t s eliot william f buckley jr leo strauss and eric voegelin all published important works at this time none of their writings would match the influence of russell kirk s 1953 masterpiece the conservative mind this seminal book became the intellectual touchstone for a reinvigorated movement and began a sea change in americans attitudes toward traditionalism in russell kirk bradley j birzer investigates the life and work of the man known as the founder of postwar conservatism in america drawing on papers and diaries that have only recently become available to the public birzer presents a thorough exploration of kirk s intellectual roots and development the first to examine the theorist s prolific writings on literature and culture this magisterial study illuminates kirk s lasting influence on figures such as t s eliot william f buckley jr and senator barry goldwater who persuaded a reluctant kirk to participate in his campaign for the presidency in 1964 while several books examine the evolution of postwar conservatism and libertarianism surprisingly few works explore kirk s life and thought in detail this engaging biography not only offers a fresh and thorough assessment of one of america s most influential thinkers but also reasserts his humane vision in an increasingly inhumane time

Skepsis and Antipolitics: The Alternative of Gustav Landauer

playwrights also made extraordinary use of metaphors involving the written and printed word to describe the workings of the mind and the interaction of people

Capital as Power

2009-06-02

an intimate history of the holocaust drawn from the final days of a jewish family in

munich postcards to hitler tells the story of a jewish family in munich living as close neighbors to the demagogue who becomes the nazi führer adolf hitler in a story passionately told by one of their descendants the narrative begins as benno neuburger a modest german land investor from munich and anna einstein daughter of a cattle dealer meet at a seder in laupheim and soon marry the year is 1907 a relatively prosperous optimistic time for german jews and there is little hint that this good fortune might soon unravel of all the jews in europe germans like the neuburgers feel most secure when on a warm july day in 1914 an assassination strikes an obscure balkan corner of the continent the news passes through munich's beer gardens like a cold wind far from a fleeting chill what follows is the time of prolonged bloodshed known as world war i followed by a period of german humiliation resurgent revolution and a brief left led democratic interlude in munich what might have been a site of socialist experimentation instead becomes the epicenter of german fascism and as benno and anna and their extended families cling with vain hope to a peaceful resolution their beloved haven degenerates into a state of racialized madness a bloody pogrom is chased by a second world war followed by evictions resettlements and far worse sounding an inescapable knell despite desperate and defiant acts of resistance postcards to hitler is a deeply researched history drawn from personal interviews and archival documents including benno's and anna's final letters written amid a slow moving parade of horror until the frail boundaries between themselves and the holocaust ultimately vanish

Russell Kirk

2015-11-09

in imagining the kibbutz ranen omer sherman explores the literary and cinematic representations of the socialist experiment that became history's most successfully sustained communal enterprise inspired in part by the kibbutz movement's recent commemoration of its centennial this study responds to a significant gap in scholarship numerous sociological and economic studies have appeared but no book length study has ever addressed the tremendous range of critically imaginative portrayals of the kibbutz this diachronic study addresses novels short fiction memoirs and cinematic portrayals of the kibbutz by both kibbutz insiders including those born and raised there as well as those who joined the kibbutz as immigrants or migrants from the city and outsiders for these artists the kibbutz is a crucial microcosm for understanding israeli values and identity the central drama explored in their works is the monumental tension between the individual and the collective between individual aspiration and ideological rigor between self sacrifice and self fulfillment portraying kibbutz life honestly demands retaining at least two oppositional things in mind at once the absolute necessity of euphoric dreaming and the mellowing inevitability of disillusionment as such these artists imaginative witnessing of the fraught relation between the collective and the citizen soldier is the story of israel itself
