Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications 2019-01-04 this book has two main tasks 1 to call attention to the special challenges presented by our experience of affect all varieties of pleasure and pain and 2 to show how these challenges can be overcome by an enrichment approach that understands affect as the enrichment or deterioration of conscious activity as a whole this enrichment approach draws from alfred north whitehead as well as the pragmatists john dewey and william james all of whom thought of affect as a fundamental aspect of experience rather than a special class of feelings it also draws from recent scientific research that suggests that the dynamic repertoire of consciousness can change effectively expanding and contracting our capacity to feel weaving these perspectives together the book develops a theory that accounts for the peculiar

phenomenology of affect and sheds new light on a diverse range of experiences from everyday pleasures and pains to the special satisfactions of the arts and religious festivity at the same time it presents a fresh and distinctively affect centered perspective on the nature of consciousness

Mastering Core TOEFL iBT/TOEIC Words 2014-07-01 this comprehensive study of the psychology of language explores how we speak read remember learn and understand language the author examines each of these aspects in detail

Kan Extensions in Enriched Category Theory 2006-11-15 a practical handbook of informal assessment procedures in reading for classroom usage with average below average and gifted students brief theoretical backgrounds of the evaluation procedures are included as well as listings of standardized tests unique features of this text include assessments of upper level thinking skills study habits word attack skills spelling inventories the usage of close analysis and how to lower readability levels
