The baptist Magazine 1817 the technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology in addition to dealing with the history of technical discovery and change history of technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred

Catalogue of books in the Mercantile library 1866 this textbook provides a comprehensive collection of influential essays that present a balanced survey of the major ideas that have come out of political philosophy in the last two decades

Catalogue of Books in the Mercantile Library, of the City of New York.

(Supplement. Accessions, March 1866 to October 1869. Accessions to Dec.

15. 1869.). 1866 the saga continues perryville kentucky october 8 1862 the small town of just under 400 residents has the notable distinction of unwittingly hosting the largest battle ever fought in the state of kentucky from before sunrise until well after dark 70 000 soldiers waged war smashed homes dismantled fences trampled crops shattering the trees and killing one another wholesale the struggle was according to one southern general who was there the severest and most desperately contested engagement to my knowledge the reader witnesses this historic carnage through the eyes of eleven different protagonists both northern and southern both infamous and common from brigadier general phil sheridan to private george kilpatrick and from brigadier general pat cleburne to private sam watkins the battle of perryville is revealed and revered in this strikingly particular fictional narrative

Catalogue of the Mercantile Library in New York 1844 dislocations deals with the main properties of dislocations including motion climb and vacancies topics covered include the elastic theory of dislocations imperfect dislocations and crystal growth along with dislocation networks annealing and grain boundaries the interaction of dislocations with other defects is also discussed this book is comprised of 17 chapters and begins with an overview of the general properties of dislocations with emphasis on perfect and real crystals and the general case for translation dislocations the reader is then introduced to the motion of dislocations including glide vacancies and interstitial atoms dislocation climb imperfect dislocations and surfaces of misfit and crystal growth including growth from a liquid phase the next section is devoted to the more or less complex networks of dislocations that can be formed in crystals and to the plastic properties corresponding to these arrays the remaining chapters explore the interactions of dislocations with other crystalline defects primarily impurity atoms this monograph is intended for physicists metallurgists materials scientists research and engineering students and research engineers

Catalogue of the Mercantile Library in New York 1844 volume 1 also contains 57 chapters of col james e saunders early settlers of lawrence county which begins with the indian days and guides the reader through the early history of lawrence county up through the description of the men and actions of the 9th and 16th alabama infantry regiments

Catalogue of the Library of the Linonian Society, Yale College, November, 1846 1846 history of nebraska was originally created to mark the territorial centennial of nebraska and then revised to coincide with the statehood centennial this one volume history quickly became the standard text for the college student and reference for the general reader unmatched for generations as the only comprehensive history of the state this fourth edition revised and updated preserves the spirit and intelligence of the original incorporating the results of years of scholarship and research this edition gives fuller attention to such topics as the native american experience in nebraska and the accomplishments and circumstances of the state s women and minorities it also provides a historical analysis of the state s dramatic changes in the past two decades

Pennsylvania 1860 1987 a perennial favorite jeffrey a helewitz s basic contract law

for paralegals provides paralegal students with a comprehensive introduction to contract law basic contract law for paralegals is a clear comprehensive and

straightforward introduction to all the basics of contract law specifically designed for paralegal students lively examples and well crafted pedagogy cover all key topics in a contracts course from offer acceptance and consideration to discharge of obligations and remedies the text balances coverage of case law with professional skills development and culminates with a chapter that asks students to draft a standard contract an appendix of twelve sample contracts provides a useful ongoing reference tool new to the tenth edition major new cases address acceptance non acceptance of an offer by silence online acceptance of an offer the capacity of a person suffering addiction to enter into a contract ambiguous conditions and contract formation battle of the forms the impact of covid 19 on the discharge of contract obligations professors and students will benefit from comprehensive practical and straightforward coverage of the basics of contract law including a chapter on drafting simple contracts clearly written text and lively examples that help students understand the law well crafted pedagogy that includes chapter overviews highlighted examples key terms review questions sample clauses for analysis edited cases chapter summaries and end of chapter exercises manageable length that makes this book ideal for shorter courses new end of chapter quick quizzes that provide a final self check of students knowledge ethical problems at the end of each chapter that raise awareness of professional responsibility in practice sample contracts in the appendix

Rand McNally Bankers Directory 1905-07 this is a fresh examination of the letters exchanged between cicero and his correspondents during the final decades of the roman republic drawing upon sociolinguistic theories of politeness it explores the distinctive conventions of epistolary courtesy that shaped formal interaction among men of the roman elite

History of Technology 2016-09-30 bibliography p 329 glossary p 328 index
Pennsylvania 1840 Census Index 1978 individualism embraces a wide diversity of meanings and is widely used by those who criticise and by those who praise western societies and their culture by historians and literary scholars in search of the emergence of the individual by anthropologists claiming that there are different culturally shaped conceptions of the individual or person by philosophers debating what form social science explanations should take and by political theorists defending liberal principles in this classic text steven lukes discusses what individualism has meant in various national traditions and across different provinces of thought analysing it into its component unit ideas and doctrines he further argues that it now plays a malign ideological role for it has come to evoke a socially constructed body of ideas whose illusory unity is deployed to suggest that redistributive policies are neither feasible nor desirable and to deny that there are institutional alternatives to the market

Debates in Contemporary Political Philosophy 2005-06-27 during world war ii the u s military lost some 35 000 aircraft to enemy action training incidents typhoons aircraft carrier deck mishaps mechanical failures or just normal wear and tear where aircraft were scrapped and used for parts to keep others flying many just failed to return from their missions to date the 15 069 aircraft represented in this 3 volume set is information initially transferred from hand written aircraft history cards and are the total number of u s navy marine corps and coast guard aircraft lost between 7 december 1941 and 15 august 1945 and lost outside the continental united states conus volume i represents the information on any aircraft lost that was attached to the 197 different ships in the database given the thousands of hours that went into this effort the author hopes that as a 3 volume set of reference books it provides assistance to others who are researching ship squadron and aircraft histories

A Dark and Bloody Ground 2014-06-19 a multidisciplinary index covering the journal literature of the arts and humanities it fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals

Heads of Families at the First Census of the United States Taken in the Year 1790 1952 a remarkable compilation of over 400 pages of statistics and records of every match and every player for the wales national rugby union team from the first match

february 1881 up to december 2023

Dislocations 2013-10-22 this volume contains the papers presented at the third international conference on neutron transmutation doping of silicon held in copenhagen on august 27 29 1980 the first symposium associated with neutron transmutation doping technology as such was arranged in 1976 at oak ridge national laboratory by john cleland at this time it had become clear that the technology could be implemented on a commercial scale and that several types of power devices in the electronic industry would benefit from employing neutron transmutation doped silicon in the fabrication process two years later the second international conference on neutron transmutation doping of semiconductors was arranged at the university of missouri columbia by jon meese on this occasion the various aspects of silicon fabrication were reviewed including irradiation control radiation induced defects device optimization and possible benefits of irradiating other semiconductor compounds in view of the now wide spread acceptance of neutron doped silicon in the power device industry the present conference was largely directed towards the current status of transmutation doping of silicon accordingly the scope of the three day conference was to review developments in the technology which had occurred during the two years which had passed since the previous conference in addition brief accounts were given with respect to other semiconducting compounds and emerging irradiation techniques which may impact on device design principles in the future

Newspaper Clippings From the Lawrence County, Alabama, Moulton

Advertiser 2017-01-29 crystal defects can no longer be thought of as a scientific curiosity but must be considered an important aspect of solid state science this is largely because many of the more interesting properties of crystalline solids are disproportionately dominated by effects due to a tiny concentration of imperfections in an otherwise perfect lattice the physics of such lattice defects is not only of significance in a great variety of applications but is also interesting in its own right thus an extensive science of point defects and dislocations has been constructed during the past two and a half decades stimulated by the technological and scientific interest in plasticity there have appeared in recent years rather a large number of books dealing with dislocations in the case of point defects however only very few broad and extensive treatments have been published thus there are few comprehensive tutorial sources for the scientist or engineer whose research activities are affected by point defect phenomena or who might wish to enter the field it is partially to fill this need that the present treatise aims
