Scientific and Technical Aerospace Reports

1995

lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the nasa scientific and technical information database

Signal

2012

reference systems and frames are of primary importance for many earth science applications satellite navigation as well as for practical applications in geo information a precisely defined reference frame is needed for the quantification of e g earth rotation and its gravity field global and regional sea level variation tectonic motion and deformation post glacial rebound geocenter motion large scale deformation due to earthquakes local subsidence and other ruptures and crustal dislocations all of these important scientific applications fundamentally depend on a truly global reference system that only space geodesy can realize this volume details the proceedings of the iag symposium refag2010 marne la vallée france october 4 8 2010 the primary scope of refag2010 was to address today's achievements on theoretical concepts of reference systems and their practical implementations by individual space geodetic techniques and their combinations underlying limiting factors systematic errors and novel approaches for future improvements

NASA Scientific and Technical Reports

1968

this symposium continued the tradition of mid term meetings held between the joint symposia of international geoid and gravity commissions this time geodynamics was chosen as the third topic to accompany the traditional topics of gravity and geoid the symposium thus aimed at bringing together geodesists and geophysicists working in the general areas of gravity geoid and geodynamics besides covering the traditional research areas special attention was paid to the use of geodetic methods for geodynamics studies dedicated satellite missions airborne surveys geodesy and geodynamics of arctic regions and the integration of geodetic and geophysical information

A Selected Listing of NASA Scientific and Technical Reports

1968

this book constitutes the thoroughly refereed post proceedings of the first international workshop on formal approaches to agent based systems faabs 2000 held in greenbelt md usa in april 2000 the 22 revised full papers presented together with 13 posters and two panel discussion reports were carefully reviewed and improved for inclusion in the book the papers are organized in topical sections on verifying agents mental states synthesizing agents initially frameworks and formalizations modeling and execution inter agent communication and adaptive agents

Tidal Estimation in the Atlantic and Indian Oceans, 30 X 30 Solution

1987

published by the american geophysical union as part of the geodynamics series volume 24 there are times in the history of a science when the evolving technology has been combined with a singleness of purpose to make possible the next great step for space geodesy the decade of the 1980s was one of those times initiated in the early 1980s the nasa crustal dynamics project cdp a global venture of unprecedented proportions exploited new technologies to confirm and refine tectonic theories and to advance geodynamics the highlights of the efforts of scientists and engineers from some 30 countries are contained in the 54 papers collected in three volumes which are dedicated to the memory of edward a ted flinn the former chief scientist of the nasa geodynamics program

Reference Frames for Applications in Geosciences

2013-03-13

presents information from the primary abiotic forces defining the system and from the present hydrology biogeochemistry and physics of major sites of organic carbon production of the mcmurdo dry valleys additionally research on the physical chemical and biological properties of the dry valley soils is included the role of environmental management in long term ecological studies is also addressed the accompanying cdrom provides details and scale to visualize the mcmurdo dry valleys from an ecosystem perspective

Simultaneous Solution for Core Magnetic Field and Fluid Flow Beneath an Electrically Conducting Mantle

1993

this principal source for company identification is indexed by standard industrial classification code geographical location and by executive and directors names

Gravity, Geoid and Geodynamics 2000

2013-06-29

indexes material from conference proceedings and hard to find documents in addition to journal articles over 1 000 journals are indexed and literature published from 1981 to the present is covered topics in pollution and its management are extensively covered from the standpoints of atmosphere emissions mathematical models effects on people and animals and environmental action major areas of coverage include air pollution marine pollution freshwater pollution sewage and wastewater treatment waste management land pollution toxicology and health noise and radiation

1999 Flight Mechanics Symposium

1999
