in this book michael sandel takes up some of the hotly contested moral and political issues of our time including affirmative action assisted suicide abortion gay rights stem cell research the meaning of toleration and civility the gap between rich and poor the role of markets and the place of religion in public life he argues that the most prominent ideals in our political life individual rights and freedom of choice do not by themselves provide an adequate ethic for a democratic society sandel calls for a politics that gives greater emphasis to citizenship community and civic virtue and that grapples more directly with questions of the good life liberals often worry that inviting moral and religious argument into the public sphere runs the risk of intolerance and coercion these

essays respond to that concern by showing that substantive moral discourse is not at odds with progressive public purposes and that a pluralist society need not shrink from engaging the moral and religious convictions that its citizens bring to public life

learn to find the happiness that is natural to you and enjoy better relationships better health more success and a longer life the peculiar thing about us humans is we spend a lot of time working to find people and things that will make us happy in fact we seem to spend the majority of our time doing this however there is no guarantee that any of this effort will work there are lots of people who have hordes of people around them and who have lots of things but have been unable to make themselves happy the truth is happiness can be had with little effort have you ever been happy for no reason at all of course you have without anything changing in life happiness just appears we see it in young children all the time in fact we expect to see it in children if you happen to ask a smiling child why he or she is so happy at best the answer may be because for an adult this may be an unsatisfying answer but for the child it is the truth happiness exists just because as we age we seem to lose touch with happiness for no reason at all we see a world where everyone is striving for stuff striving for popularity striving striving striving the natural fount of happiness we once enjoyed disappears as we join them however that happiness is not gone all that happened is we lost our connection to it this book is about recovering that connection we all grow up believing that if we work hard and if we are good people we will enjoy good relationships with others good health success and a long life obviously this is not true there are a lot of rich old people who are not happy what we have what we do and the other circumstances of our lives do not provide authentic happiness instead happiness comes from inside of us and all by itself enables us to have secure relationships good health more success and longer lives so what is the secret of being happy being happy is a little like flipping a switch when it s on you are happy and

when it s off you are not it s so easy how else can you explain being happy for no reason what you need to do is learn to turn it on and keep it turned on this book discusses seven practices that help you do that there is a lot of wisdom available about how to be happy most of it is thousands of years old but some is quite new the seven practices we will look at incorporate this wisdom to help you learn how to turn on happiness in your life this kind of happiness does not require changing anything in your life all you have to do is learn to turn it on

is the christian faith something that can peacefully exist alongside all the other aspects of an ordinary human life or does it by its very nature turn that life into something else the author of this book a member of a monastic community for over forty years obviously has a vested interest in the answer but even for believers caught up in the day to day life of society work and family the question is an important one at least if they are seeking a measure of consistency in the life they are living and does not the very fact that the question of the importance and urgency of faith needs to be asked witness to the eclipse of an eschatological outlook among christians at any rate in the mainstream churches could this oversight not explain why an eschatological understanding of faith one which sees it as a radical world changing reality has been forced to take refuge often deformed to the point of being unrecognizable in small fanatical groups on the margins of the christian world
