jane leade 1624 1704 is probably the most prolific woman writer and most important female religious leader in late seventeenth century england yet she still remains relatively unknown by exploring her life and works as a prophetess and mystic this books opens a fascinating window into the world of a remarkable woman living in a remarkable age born in norfolk into a gentry family jane leade enjoyed a comfortable childhood married a distant cousin who was a merchant and had four children however she found herself totally destitute in london when he died his fortune having been lost abroad as a widow she proclaimed herself to be a bride of christ and eventually became a prolific author and a respected blind elderly leader of a religious group of well educated men and women known as the philadelphian society the structure of this book is informed by the chronological events that happened during her life and is complemented by examining some of the material she published including her visions of the virgin wisdom or sophia she started writing in 1670 but published prolifically in the 1680s and 1690s and this material offers a fascinating glimpse into the mind of an extraordinary woman believing herself to be living in the end times she expected sophia would return with the second coming of christ the

philadelphian society grew under her charge until they were buffeted by mobs in london jane leade died in her eighty first year and is buried in the non conformist cemetery bunhill fields in london by contextualising her and drawing out the nature of her devotions this new book draws attention to her as a figure in her own right previous studies have tended to reduce her to one example within a certain tradition but as this work clearly demonstrates she was in fact a much more complicated character who did not conform to any one particular tradition

the system of antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the new age spiritualities within their postmodern context its many references to rene guenon and frithjof schuon also help introduce these important but little known traditionalist thinkers the book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from buddhism hinduism judaism christianity islam zoroastrianism and the native american traditions it also speculates upon the social psychic and spiritual nature of that being known to christianity judaism and islam as the antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that

seduction and that terror finally in tracing the roots of antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it and along the way he describes his own course from the spiritual revolution of the 1960s through the world of new age spiritualities to the threshold of traditional esoterism and metaphysics as he says speaking of the angst that characterizes the modern world the specific medicine for the shock of despair is the deeper shock of meaning nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet

william butler yeats has been long considered the standard by which all irish poetry is judged even the best of his immediate successors could not be liberated from yeats s influence in a new edition of his groundbreaking work dillon johnston elaborates on the premise that many of ireland s new voices do not follow the yeatsian model the singular lyric or odic voice rather they rely on joyce for an interplay of dramatic voices johnston describes the world that contemporary poets have inherited the legacies of yeats and joyce the conflict of unionism and nationalism the irish language itself and the politics of literature after world war ii he then explores the poetry of successors to both yeats and joyce austin clarke is paired with thomas kinsella patrick kavanagh with seamus heaney denis devlin with john montague and louis macneice with derek mahon this edition encompassing major poets of the last fifty five years includes the work of paul muldoon richard murphy eavan boland medbh mcguckian and eilean ni chuilleain
