How to Build Performance Nissan Sport Compacts, 1991-2006 HP1541 2008-11-04

this is a comprehensive guide to modifying the 1991 2006 nissan sentra nx and 200sx and infiniti g20 for street and racing performance it includes sections on models and engines engine theory bolt on performance components cylinder heads and bottom end modifications forced induction engine swaps brakes suspension wheels and tires cosmetic and aerodynamics and safety

How to Build Performance Nissan Sport Compacts, 1991-2006 2008

vehicle maintenance

How to Build Performance Nissan Sport Compacts, 1991-2006 2008

this guide for building a race winning ford engine includes chapters on parts and engines cylinder block cylinder heads bottom end modifications exhaust systems cooling systems final engine assembly dyno tested performance combinations and more

How to Build Small-Block Ford Racing Engines HP1536 2010-06-01

a complete owner s guide for owners and enthusiasts of toyota s mr2 one of the most successful mid engined sports cars ever built includes history sales and model year details oem maintenance and repairs chassis brake suspension upgrades engine bolt on modifications racing your mr2 safety and staged combinations to build mr2s for any high performance use from mild street to autocrossing and road racing

Toyota MR2 Performance HP1553 2009-11-03

a practical guide to modifying and tuning modern electronic fuel injection efi systems including engine control units ecus the book starts out with plenty of foundational topics on wiring fuel systems sensors different types of ignition systems and other topics to help ensure the reader understands how efi systems work next the book builds on that foundation helping the reader to understand the different options available re tuning factory ecus add on piggyback computers or all out standalone engine management systems next matt and jerry help the reader to understand how to configure a standalone ems get the engine started prep for tuning and tune the engine for maximum power and drivability also covered is advice on tuning other functions acceleration enrichments closed loop fuel correction and more finally the book ends with a number of case studies highlighting different vehicles and the ems solutions that were chosen for each helping to bring it all together with a heavy emphasis on how you can practically approach your projects and make them successful

Performance Fuel Injection Systems HP1557 2010-08-03

this completely revised and updated edition of hp s bestselling book on how to build high performance 5 0 5 8l ford small block engines the second most popular engine modified in the aftermarket contains five new chapters on the latest technology for modifying the cylinder block heads camshafts valvetrain exhaust systems and more

Ford Windsor Small-Block Performance HP1558 2010-10-05

simple cost effective basic and reliable tips to ensure any rally car stands a chance of reaching the finishing line if you are planning a road based rally don t even think of leaving home before reading this book and implementing the tried and tested mods it describes so well

How to Build a Successful Low-Cost Rally Car 2009-02-15

this is a revised and updated edition of one of the bestselling paint handbooks in the industry it includes current information on hvlp paint guns and equipment and waterborne paint technology it also has sections on hammer and dolly paintless dent removal patching panels spray guns and compressors paint prep shooting paint color sanding plastic bumper repair and custom paint tips and tricks

Pro Paint & Body HP1563 *2011-02-01*

a step by step guide to rebuilding modifying and tuning the carter edelbrock carburetors carter history and model overview an overview of carb parts and how they work car selection rebuilding carbs installation and hardware performance and adjustments general tuning and troubleshooting emission fuel economy and fuel supply racing and special applications

Rebuild & Powertune Carter/Edelbrock Carburetors HP1555 *2010-01-05*

a compilation of 50 performance articles from the editors of super chevy chevy high performance and gm high tech performance magazines on how to build maximum power and performance on the chevy ls family of small block engines

Chevy LS Engine Buildups *2011-07-05*

this is a compilation of more than 50 restoration and maintenance projects for mustangs built from 1964 through 1973 the most popular collectible mustangs includes how to projects on engine and drivetrain electrical body work interior chassis and suspension

Classic Mustang HP1556 *2011-03-01*

the ultimate performance guide to the rotary engines built by mazda from 1978 to the present includes engine history and identification rotary engine fundamentals component selection and modifications housings and porting rotors seals and internals intake and fuel systems exhaust systems engine management and ignition oil and lubrication systems forced induction nitrous water and alcohol injection

Street Rotary HP1549 2009-05-05

today s restorer has a wealth of resources available that didn t exist just a few years ago it is no longer necessary or feasible to perform every step of a ground up restoration yourself unless you truly want to knowing how to properly plan organize and execute a restoration can save both time and money and help ensure that you ll end up with exactly the car or truck you envisioned

Practical Auto & Truck Restoration HP1547 *2010-03-02*

this informative fully illustrated handbook includes basic discussion on the science of engine airflow and relationships how flowbenches work testing individual engine components how to analyze the data calibration issues intake and exhaust tuning engine formulas and putting it all together for maximum performance

Engine Airflow HP1537 *2010-07-06*

this book details how to design build and setup the chassis and suspension for road race and stock cars includes chassis dynamics spring and shock theory front and rear suspension geometry real world racing aerodynamics steering systems racing chassis software and all you need to know to set you chassis up to win races

Advanced Race Car Chassis Technology HP1562 2010-11-02

this indispensable guide to high performance and oem automotive electrical systems covers electrical theory wiring techniques and equipment custom wiring harnesses for racing hot rods and restorations pre made wiring harnesses special electrical systems navigational audio video troubleshooting common electrical problems dashboards and instrument and trailer wiring

Custom Auto Wiring & Electrical HP1545 *2009-04-07*

a guide on how to convert any gas or diesel powered vehicle to electric power includes ownership advantages basic ev operation subsystems components basic ev operation project vehicles and conversion kits

The Electric Vehicle Conversion Handbook HP1568 2011-06-07

covers research on strategic alliances and serves to lay out a research agenda on collaborative strategy and alliance management this book covers the theoretical foundations that guide work on inter firm collaboration ranging from sociological perspectives to real options theory to diverse traditions within organizational economics

Handbook of Strategic Alliances 2006

the famed movie car builder explains how to use a plasma cutter for custom metal fabrication includes basic advanced and cnc cutting procedures as well as how to draft and design components for racing and custom car building it discusses safety procedures troubleshooting and professional tips and includes examples from eddie paul s world famous custom shop

Plasma Cutting Handbook HP1569 2011-11-01

toleman was the team that took ayrton senna into formula 1 to which he responded by creating a masterpiece of movement at monaco this was the team that launched derek warwick this was the team that brought rory byrne ferrari s design genius to sudden prominence this book presents the story of toleman

The Toleman Story 2010-02-01

expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably a lot is talked about ignition systems and there is a bewildering choice of expensive aftermarket parts which all claim to deliver more power des hammill cuts through the myth and hyperbole and tells readers what really works so that they can build an excellent system without wasting money on parts and systems that simply don t deliver ignition timing and advance curves for modified engines is another minefield for the inexperienced but des uses his expert knowledge to tell readers how to optimize the ignition timing of any high performance engine

How to Build & Power Tune Distributor-Type Ignition Systems 2009-07

a guide to what has been the 1 modified import car for the street during the last decade the honda engine this book covers some performance theory basics then launches into dyno tested performance parts combinations for each b series engine topics covered include performance vs economy air intakes manifolds and throttle bodies tuning turbocharging supercharging and nitrous oxide

Xtreme Honda B-Series Engines HP1552 2009-09-01

an invaluable guide for the home restorer coverage includes tools panel removal fitting sectional repairs sills floors and outriggers chassis members multiple panel assemblies metal forming techniques tricks of the trade and much much more

How to Restore Classic Car Bodywork 2012-03

sports prototype racing is about endurance for the drivers for the teams and for the companies involved in this story we see the effort the blood the sweat and the tears reputations won and lost life and also death the cars some of the most evocative ever seen are described in detail we see stunningly beautiful creative slippery aerodynamic designs that allowed alpine to take many class wins and outright victories in championship racing from 1963 to 1969 you will feel the passion and dedication for racing from interviews with the men involved illustrated with dramatic period photographs

Alpine & Renault 2010-06-15

together with his colleagues at citroën andre lefebvre created the traction avant 1934 the tub 1939 citroën s first front wheel drive utility van that was succeeded by the h and hy vans 1947 the deux chevaux 1948 and last but not least the ds 1955 from 1923 to 1931 lefebvre also designed several highly original and outstanding competition cars and record breaking automobiles for voisin he even drove some these cars in races and record attempts it is obvious that during his 16 years with gabriel voisin he was very much influenced by the ideas of this illustrious aviation pioneer and car manufacturer the experience gained during that period gave him the self confidence to persuade his successive bosses at citroën that his unorthodox approach to automobile design was what the company needed first he convinced andré citroën later pierre michelin then pierre jules boulanger and finally robert puiseux and pierre bercot his oeuvre for citroën alone earns him a place of honour among the great automobile designers of the past century the fact that most present day cars

still carry the dna of his design philosophy makes him stand out above other automotive pioneers and innovators that is why it is amazing that so little is known about this fascinating and brilliant engineer this book was written in order to remedy that and to pay tribute to andré lefebvre the passionate pioneer who left car enthusiasts around the world such an important heritage

André Lefebvre, and the Cars He Created at Voisin and Citroën 2011-11

a nostalgic look at how austin bounced back after wwii and how despite the severe materials shortage it managed to develop the largest range of vehicles produced by any auto maker in post war britain back cover

The Last Real Austins 2009-07

it took a great deal of determination on the part of women to sweep aside male resistance from the inner circles of the motoring world a veritable saga with a wealth of illustrations spanning almost a century of motor racing over forty unique portraits of daring brave women who took part in speed records events rallies and grand prix races

Fast Ladies 2009-07

the origin and subsequent history of the 3 litre ferrari sports cars which the famed italian firm designed and built to contest the various versions of the world sports car championship between 1969 and 1973 this series of cars started with the v12 engine and progressed to using the flat 12 ferrari engine from the then current grand prix car

Ferrari 312P And 312PB 2009

this book covers the process of building 4 stroke engines to a professional standard from selecting materials and planning work right through to methods of final assembly and testing it is written for the diy engine builder in an easy to understand style supported by approximately 200 photographs and original drawings containing five engine inspection and build sheets and the contact details of approximately 45 specialist manufacturers and motorsport suppliers it explains build methods common to all 4 stroke engines rather than specific makes or models an essential purchase for all engine building enthusiasts

Secrets of Speed 2010-09-15

large format version of the definitive history of the most sought after fastest and elegant bentleys in the era of british ownership the continentals includes bentley continental r and s types from 1951 bentley corniche continental convertible continental r s t and azure

Bentley Continental 2010-02-15

here is an introduction to the whole cult of the dune buggy from its earliest beginnings as a crude off road vehicle in the 1920s to the explosion of glassfibre bodied and vw based fun cars that became the cult transport of teenagers everywhere in the 1960s and 1970s with histories production details dates and identification tips for over 70 us and uk buggies this book will help identify the many marques that have been produced over the years using period photographs and archive material combined with amazing contemporary photography the book is a visual feast and also contains sections on buggies and celebrities for those that want to spot pop stars tv hosts and racing drivers posing with period vehicles

Dune Buggy Handbook 2013-06

the authors spent seventeen days at the morgan factory in pickersleigh road malvern link recording step by step from customer s specification sheet to finished car how individual craftsmen handbuild a morgan follow this amazing journey through the factory from craftsman to craftsman by word and picture

Making a Morgan 2015-11-06
