the art of portraiture in poetry is traceable from the latin poets and chaucer via goldsmith wordsworth and browning to the modern era of rimbaud cavafy auden lowell and hofmann poetry is an art form which encourages introspection so it is a welcome break to find these poets looking outward fondly or otherwise in homage or in satire at their fellow performers on the human stage here you may find yourself rubbing shoulders with the likes of elvis presley oscar wilde and the duke of buckingham or buttonholed by intriguing gatecrashers to the virtual party who is butch weldy for instance and what did become of waring

Verse Portraits 1997

a ship portrait is a tribute to the life and art of john o brien nineteenth century painter of ships written as what harry thurston calls a novella in verse built upon two voices o brien s and the poet s the poem traces the painter s life in halifax during the apex and decline of the golden age of sail thurston characterizes this era in nova scotia s history as a time of shifting mythologies of strife between old world and new and of a surprisingly cosmopolitan lifestyle sustained by the shipping industry for some time says thurston i had wanted to write a long poem about our historical relationship to the sea then in 1984 i attended an exhibition of john o brien s work at the art gallery of nova scotia ship portraits of a kind i had grown up seeing in the libraries museums and parlours of yarmouth this artist s vision rather than the more romantically conventional viewpoint of the iron men of wooden ship fame seemed a promising lens it took another two decades for me to begin writing what at first i imagined as a kind of nineteenth century style narrative poem i needed a form that could reach beyond the traditional bounds of lyrical poetry to address such matters as the economy and the place of the artist in society the more proper

concerns of a novel i had always liked dramatic monologue so began in o brien s voice oddly i found the lines unrolling in perfectly good blank verse however not long into the writing process i began a dialogue with o brien an exchange of our histories as maritimers and of the working lives of artists which bridge time and place we meet o brien on his deathbed from where he recounts his life as it began in 1831 aboard a ship bound for canada alternating with o brien s thurston s own voice offers commentary support and retrospection reaching a long arm over the years to his own childhood stomping grounds in yarmouth and the more subdued climate in nova scotia s ports a century after the golden age thurston considers o brien s contemporaries melville ruskin and turner as counterpoints to the painter s career and as part of a wider examination of the role of artists and art in the composition of history perhaps the most fascinating passages in the poem are those in which o brien s artistic techniques and preferences are revealed thurston draws out this tension at the centre of o brien s portraits commenting on the extent to which the painter s career hung in the balance alongside the age of sail the poem s two halves embody the crossovers between art and history and how each shapes our perception of the other thurston s vivid scenes hinge on associative details creating a narrative that is exotic grounded and subtly informative in employing both contemporary and historic voices he successfully condenses this real life artist s story into art genuinely engaging in a thrilling period of nova scotia s history this book is a smyth sewn paperback bound in card stock with an offset printed jacket the text was printed offset on laid paper
