**Summary and Recommendations to the Appalachian Regional Commission** 1965

understanding the causes of the racial achievement gap in american education and then addressing it with effective programs is one of the most urgent problems communities and educators face for many years the most popular explanation for the achievement gap has been the oppositional culture theory the idea that black students underperform in secondary schools because of a group culture that devalues learning and sees academic effort as acting white despite lack of evidence for this belief classroom teachers accept it with predictable self fulfilling results in a careful quantitative assessment of the oppositional culture hypothesis angel l harris tested its empirical implications systematically and broadened his analysis to include data from british schools from every conceivable angle of examination the oppositional culture theory fell flat despite achieving less in school black students value schooling more than their white counterparts do black kids perform badly in high school not because they don t want to succeed but because they enter without the necessary skills harris finds that the achievement gap starts to open up in preadolescence when cumulating socioeconomic and health disadvantages inhibit skills development and when students start to feel the impact of lowered teacher expectations kids don t want to fail is must reading for teachers academics policy makers and anyone interested in understanding the intersection of race and education

*Thesaurus of ERIC Descriptors* 1993 based on the institute of concrete technology s advanced course this new four volume series is a comprehensive educational and reference resource for the concrete materials technologist an expert international team of authors from research academia and industry has been brought together to produce this unique reference source each volume deals with different aspects of the properties composition uses and testing of concrete with worked examples case studies and illustrations throughout this series will be a key reference for the concrete specialist for years to come expert international authorship ensures the series is authoritative case studies and worked examples help the reader apply their knowledge to practice comprehensive coverage of the subject gives the reader all the necessary reference material

**Circular** 1970 this book sex sexuality and sexual health in southern africa is structured around four major themes gender and sexuality diversity love pleasure and respect gender sexual violence and health and sexuality gender and sexual justice chapters in this book analyse sexuality in relation to recent developments in the southern african region and what this might mean for contemporary theory policy and practice sex sexuality and sexual health are often viewed through a narrow biomedical lens ignoring the fact that they are profoundly social and historical in character the contributors in this book bring to light the entanglements of sexuality with respect recognition rights and mutual respectful pleasure authors draw attention to partnerships allyships and feminist queer and trans coalitions in the pursuit of sexual health and justice in the region the book will be of interest to final year undergraduate and postgraduate students researchers and activists as well as those working in women and gender studies critical sexuality studies sexual and reproductive health development studies public health psychology education sociology and anthropology

*The Significance of Friendship Intimacy and Family Warmth for Adolescent Identity Development and Individuation* 2008-12-30 scientific literacy is part of national science education curricula worldwide in this volume an international group of distinguished scholars offer new ways to look at the key ideas and practices associated with promoting scientific literacy in schools and higher education the goal is to open up the debate on scientific literacy particularly around the tension between theoretical and practical issues related to teaching and learning science uniquely drawing together and examining a rich diverse set of approaches and policy and practice exemplars the book takes a pragmatic and inclusive perspective on curriculum reform and learning and presents a future vision for science education research and practice by articulating a more expansive notion of scientific literacy
