portfolios are a tool of increasing significance across the health professions in meeting the demands of contemporary regulation of professional competence professional portfolios evidence of competency for nurses and midwives is the first book written specifically for the Australian and New Zealand market that demonstrates the relationship between portfolios and regulation the book offers background information on the need for and benefits of portfolios and a range of approaches and formats to communicate progress towards education for entry to practice for students of midwifery and nursing programs continuing professional development performance review renewal of practice certificates and career review and planning a key strength of this book is the way it facilitates an understanding about the rationales in portfolio design and the integration of the relevant professional standards the book addresses the concept of evidence and examines its role in making claims to achievement of competence and learning a further strength is the inclusion of the potential for portfolios to assist with performance review and career planning making this book a useful resource for undergraduate and postgraduate students practicing clinicians and educators a trusted person centred resource to start you on the path to professional success fundamentals of nursing and midwifery is a popular foundational nursing text specifically developed for Australian and New Zealand students this comprehensive resource provides a detailed overview of key information with person centred care highlighted throughout to focus on the individualistic interactive and holistic nature of nursing and midwifery practice it uses accessible language that introduces students to the why as well as the how of nursing and midwifery it focuses not only on a person's physical healthcare needs but also on the intellectual emotional sociocultural and spiritual aspects of care in this way students learn to be holistic health care professionals while acquiring the foundational knowledge procedures and skills required for successful nursing or midwifery practice the NMC have produced standards of proficiency for pre registration midwifery education and those standards have been written in an academic language for higher education institutions each student prior to being admitted to the profession must have achieved the proficiencies stated in the NMC publication the purpose of this book is to provide students with material related to the standards of midwifery education the students will be able to use the contents of this text and relate it to their own approved programme of midwifery study as their programme of study would have had to comply with NMC's requirements it will help student midwives appreciate how their own programmes have been designed and why they are required to study and understand some of the subjects they are or will be studying nursing and social change is essential reading for nurses who wish to understand how their profession had developed from its earliest beginnings to the present day now in its third edition the book has been completely revised to take into account the challenges facing nurses ten new chapters include contributions from senior members of the nursing profession who have been closely involved in the most recent health service reorganisation and the radical changes to nurse education students and practitioners will find nursing and social change invaluable as a comprehensive source of reference which offers a unique combination of scholarship and readability over the past ten years nursing and midwifery in Ireland have experienced a considerable number of changes driven principally by the report of the Commission on Nursing published in 1998 and the health service reform programme announced in 2003 in the same period Irish society has become wealthier and more culturally diverse creating new challenges for nursing and midwifery in Ireland Yvonne O'Shea sets out to identify the role for nursing and midwifery in the health services of the future in Ireland and to formulate a strategy for the professional development required for the professions the book has three parts part 1 sets out

to establish the context within which the professions of nursing and midwifery operate in ireland by examining the implications of recent key policy developments and the roles played by the report of the commission on nursing and the national council for the professional development of nursing and midwifery part 2 forms the core of the book and is based on seventy seven interviews with senior figures in the health services including policymakers service managers medical consultants educators and leaders of nursing and midwifery part 3 goes on to outline a strategy for the professional development of nursing and midwifery including key steps necessary to reach objectives and to realise the strategy s long term vision published at a time of significant change within the health services in ireland the book is intended as a contribution to ensuring that nursing and midwifery take their place at the heart of health service transformation it will be of great value to all role players in the irish health service nursing and midwifery council fitness to practise annual report 1 april 2009 to 31 march 2010 midwifery preparation for practice 2e is the only text which reflects the historical and socio political environment in which midwives in australia and new zealand practice in addition it is the only text which incorporates the philosophy and standards endorsed by new zealand and australian colleges of midwives while also focusing on the partnership between midwives with women and the woman centred model of midwifery care the second edition has built on the existing philosophy and structure of midwifery preparation for practice though with a greater emphasis on the development of critical thinking and researching skills key chapters have been re written to reflect recent changes in government legislation while current research and pertinent examples are included throughout the text this new edition is supported by a comprehensive suite of resources for both instructors and students using the evolve website as a platform these ancillaries will re enforce the critical thinking elements for students with interactive case studies and scenario based learning exercises as well as the multiple choice questions myles professional studies for midwifery education and practice concepts and challenges explores the non clinical areas of the midwifery curriculum e g law ethics leadership employer led supervision and professional development in a helpful user friendly format brought to readers by a team of experts under the guidance of jayne marshall editor of myles textbook for midwives the volume will be suitable for all student midwives whether undertaking pre registration education programmes or post graduate studies as well as practising midwives preparing for revalidation and or undertaking cpd whilst prepared predominantly by contributors from the uk myles professional studies for midwifery education and practice concepts and challenges will be suitable for an international readership specialist contributors ensure accuracy and currency of key information underlying theory supported by a rich array of helpful learning features such as real life case studies and reflective activities includes the latest initiatives such as employer led supervision and the principles of coaching includes a section on the icm and eu standards of education and international regulation covering the usa australia new zealand africa denmark and norway explores the global context of the midwife s scope of practice with specific examples from the uk canada and the usa includes discussion of cpd and overseas careers opportunities annotated reading lists and significant websites provide additional sources of information published alongside the council s annual fitness to practise report 2011 12 isbn 9780108511790 published alongside the council s annual report for 2011 12 and strategic plan 2012 15 hc 585 session 2012 13 isbn 9780102978940 the book provides an up to date picture of contemporary midwifery in the uk it analyses the profession s strengths and weaknesses and discusses current opportunities and threats to the midwife s role the statutory organisations that control midwifery are currently being overhauled and the issues raised in the book are relevant to that process all the contributors are actively involved in the provision of care to the childbearing woman and most are practising midwives the book considers the development of midwifery in the uk and in the context of different forms of development in other countries notably germany and new zealand this is an accessible guide aimed at student nurses introducing them and guiding them through the nursing and midwifery council s approved programmes of education for registered nurse status every programme of study that prepares a student to become a proficient registered nurse must be approved by the nmc and adhere to its standards and guidelines the book is broken in to four sections based on the

four proficiencies stated by the nmc professional and ethical practice care delivery care management and personal and professional development it presents these proficiencies in an easy to understand and implement way making it easily accessible for both students and registered nurses who will find it a useful reference for their work and development published alongside the council s annual report for 2012 13 and strategic plan 2013 16 hc 677 session 2013 14 isbn 9780102986716 the australian nursing and midwifery council has issued core competency standards for registered nurses those using the standards include registered nurses state territory nmra s as part of the license renewal process those involved in professional conduct matters consumers and universities the competencies are organized into four domains professional practice critical thinking and analysis provision and coordination of care and collaborative and therapeutic process nursing and midwifery council annual report and accounts for the year ending 31st march 2008 nursing and midwifery council annual report and accounts 2010 2011 evidence based practice is now widely accepted as a fundamental tenet of midwifery the importance of evidence in defining midwifery policy and practice in the uk health system and others is acknowledged and enduring while the development and evaluation of research in midwifery is well charted the question of how such evidence is incorporated into practice has to date received less attention and discussion in the midwifery profession answering this need evidence based midwifery focuses on the dissemination and use of evidence for midwifery practice and explores midwives experiences in using the evidence base to inform policy and enhance clinical practice written by a highly regarded and diverse group from the uk and international midwifery community evidence based midwifery addresses issues of relevance to all midwives whether clinical practitioners or educators students or supervisors researchers or managers issues that influence evidence based midwifery are discussed and topics covered include problem based learning implementation of evidence based guidelines and the involvement of service users edited by founder members of the evidence based midwifery network international collaboration with contributions from the uk greece canada and the netherlands primary focus on the incorporation of evidence into midwifery practice real life examples throughout published alongside the council s annual fitness to practise report 2012 13 isbn 9780102986723 now in its 5th edition midwifery preparation for practice continues to present a global model of midwifery best practice that is supported by a range of examples from the australian new zealand and international midwifery contexts endorsed by the australian college of midwives and the new zealand college of midwives the text continues to reinforce the established principles of midwifery philosophy and practice that of midwives working in partnership with women in woman centred models or midwife led care this focus is what sets this text apart from other physiology based midwifery texts making it a highly valued resource for students and practicing midwives alike the highly esteemed team of editors once again lead a group of internationally recognised leaders in midwifery to share their knowledge and expertise in midwifery practice education research and regulation across australia new zealand and internationally aligned to local and international midwifery standards for practice and guidelines endorsed by the australian college of midwives and the new zealand college of midwives presented in 2 volumes for ease of use videos to support learning new chapters sustainability and environmental health care ethical frameworks for practice updated midwifery guidelines and practice examples throughout what is the reality of being a midwife in the twenty first century what is it like to help and support women throughout pregnancy and childbirth and into motherhood what roles can midwives play in society this new edition of the popular text becoming a midwife explores what it is to be a midwife looking at the factors that make midwifery such a special profession as well as some of the challenges the fully updated chapters cover a variety of settings and several different stages in a woman s pregnancy including stories from midwives working in hospitals and in the community as managers supervisors and educators and as men women mothers and birth activists all chapters are narrated by contributors who introduce their own theme recount a vignette that throws light on their understandings of midwifery and reasons for becoming or not becoming a midwife and any subsequent career moves backed up by commentaries and drawing together these insights the editors show what it means to be a midwife today suitable for those contemplating a career in midwifery and

providing an opportunity for reflection for more experienced midwives this thought provoking book is an invaluable contribution to midwifery continuity of care in midwifery the most traditional way of practising has been overlooked for much of the last century but is re emerging as an evidence based model of care one which is known to benefit women this book is a vital companion to students and qualified midwives as continuity of care is integrated into midwifery education and services a practical easy to read guide to practising caseload midwifery this book outlines the contemporary political and professional context for midwifery care different models of care and the evidence and outcomes associated with continuity of carer it discusses the real life concerns challenges and opportunities of working closely with women throughout their pregnancy and birth covering key issues such as risk assessment consent boundaries time management documentation communication burnout and decision making supporting the development of midwives from students to newly qualified professionals and beyond it ends with a chapter containing a range of resources for reference including helpful tools and worksheets including vignettes from students qualified midwives and women and their partners this book is designed for anyone new to practising midwifery continuity of care intended to the safe provision of maternity care this book provides a framework that guides and supports midwives in their practice and professional lives it builds on the previous work of the nursing and midwifery council and incorporates the insights and experiences of supervisors of midwives and isa midwifery officers the ombudsman investigated three cases in which local statutory supervision of midwives failed all of which occurred at morecambe bay nhs foundation trust the cases clearly illuminate a potential muddling of the supervisory and regulatory role of supervisors of midwives the current arrangements do not always allow information about poor care to be escalated effectively into hospital clinical governance or the regulatory system this means the current system operates in a way that risks failure to learn from mistakes which cannot be in the interests of the safety of mothers and babies and must change working with the nursing and midwifery council nmc the professional standards authority for health and social care nhs england and the department of health the ombudsman has identified two key principles that will form the basis of proposals to change the system of midwifery regulation that midwifery supervision and regulation should be separated that the nmc should be in direct control of regulatory activity the department of health should convey these recommendations to its counterparts in northern ireland scotland and wales and develop proposals to put these principles into effect nursing and midwifery council annual report and accounts for the year ending 31st march 2009 the professional development of nursing and midwifery in ireland key challenges for the twenty first century provides a unique overview of the many changes that are taking place in the irish health services and details how they will continue to affect the professions of nursing and midwifery it explores how nurses and midwives interact with others in the health services and how nursing and midwifery are a rich resource in the delivery of an efficient and effective healthcare service this book is a comprehensive guide to what it means to be a nurse or midwife in today s irish health services it is essential reading for all those involved in nursing and midwifery education both students and educators and is a reference book for clinical practitioners employers and all those involved in the formulation of policies for the health services and the regulation of the professions

Nursing and Midwifery Portfolios

2011

portfolios are a tool of increasing significance across the health professions in meeting the demands of contemporary regulation of professional competence professional portfolios evidence of competency for nurses and midwives is the first book written specifically for the Australian and New Zealand market that demonstrates the relationship between portfolios and regulation the book offers background information on the need for and benefits of portfolios and a range of approaches and formats to communicate progress towards education for entry to practice for students of midwifery and nursing programs continuing professional development performance review renewal of practice certificates and career review and planning a key strength of this book is the way it facilitates an understanding about the rationales in portfolio design and the integration of the relevant professional standards the book addresses the concept of evidence and examines its role in making claims to achievement of competence and learning a further strength is the inclusion of the potential for portfolios to assist with performance review and career planning making this book a useful resource for undergraduate and postgraduate students practicing clinicians and educators

National Competency Standards for the Midwife

2006-01-01

a trusted person centred resource to start you on the path to professional success fundamentals of nursing and midwifery is a popular foundational nursing text specifically developed for Australian and New Zealand students this comprehensive resource provides a detailed overview of key information with person centred care highlighted throughout to focus on the individualistic interactive and holistic nature of nursing and midwifery practice it uses accessible language that introduces students to the why as well as the how of nursing and midwifery it focuses not only on a person's physical healthcare needs but also on the intellectual emotional sociocultural and spiritual aspects of care in this way students learn to be holistic health care professionals while acquiring the foundational knowledge procedures and skills required for successful nursing or midwifery practice

Fundamentals of Nursing & Midwifery

2022-01-03

the nmc have produced standards of proficiency for pre registration midwifery education and those standards have been written in an academic language for higher education institutions each student prior to being admitted to the profession must have achieved the proficiencies stated in the nmc publication the purpose of this book is to provide students with material related to the standards of midwifery education the students will be able to use the contents of this text and relate it to their own approved programme of midwifery study as their programme of study would have had to comply with nmc's requirements it will help student midwives appreciate how their own programmes have been designed and why they are required to

study and understand some of the subjects they are or will be studying

Becoming a Midwife in the 21st Century

2013-03-19

nursing and social change is essential reading for nurses who wish to understand how their profession had developed from its earliest beginnings to the present day now in its third edition the book has been completely revised to take into account the challenges facing nurses ten new chapters include contributions from senior members of the nursing profession who have been closely involved in the most recent health service reorganisation and the radical changes to nurse education students and practitioners will find nursing and social change invaluable as a comprehensive source of reference which offers a unique combination of scholarship and readability

Discussion Paper on Post-registration Education and Practice

1990

over the past ten years nursing and midwifery in ireland have experienced a considerable number of changes driven principally by the report of the commission on nursing published in 1998 and the health service reform programme announced in 2003 in the same period irish society has become wealthier and more culturally diverse creating new challenges for nursing and midwifery in nursing and midwifery in ireland yvonne o shea sets out to identify the role for nursing and midwifery in the health services of the future in ireland and to formulate a strategy for the professional development required for the professions the book has three parts part 1 sets out to establish the context within which the professions of nursing and midwifery operate in ireland by examining the implications of recent key policy developments and the roles played by the report of the commission on nursing and the national council for the professional development of nursing and midwifery part 2 forms the core of the book and is based on seventy seven interviews with senior figures in the health services including policymakers service managers medical consultants educators and leaders of nursing and midwifery part 3 goes on to outline a strategy for the professional development of nursing and midwifery including key steps necessary to reach objectives and to realise the strategy s long term vision published at a time of significant change within the health services in ireland the book is intended as a contribution to ensuring that nursing and midwifery take their place at the heart of health service transformation it will be of great value to all role players in the irish health service
