## **Unsolved Murders in South Yorkshire**

2013-05-02

whilst the passage of time can and has uncovered many secrets killers could get away with their crimes in 1596 when shakespeare penned these words and this is certainly the case in more recent times as unsolved murders in south yorkshire clearly demonstrate the early chapters include cases of historic interest where killers certainly went to the grave in the knowledge they had got away with murder cases include suspicious deaths which left detectives in south yorkshire baffled but which were it would seem acts of callous murder which were not recognised as such due to dubious police opinions and practices there are also cases of clear murder such as a man shot in the head during the victorian period whose killer was never identified the later chapters however feature more recent cold cases where there is still the possibility that the wicked men or women who were

responsible for such acts of inhumanity may remain within our society cases include a man murdered for less than 70 in a city centre multi storey car park a teenage girl abducted sexually assaulted and left dead on a dung hill a young mother who entered prostitution and died at the hands of a man with more than sex on his mind a pregnant woman who left home one day to go shopping but was found days later dead in a ditch with her throat cut and a disabled woman who was strangled in her home which was then set ablaze for some of these cases there is the chance that someone has information which despite the passage of decades could lead to one or more individuals standing trial for murder justice can still prevail

earlier that suspect had volunteered a confession that he d killed adam walsh but the police then had deeply investigated his story and couldn t verify anything he d said not even that he d been within 400 miles of the area in 2008 when a new hollywood police chief closed the case he admitted they had no new evidence what the new chief didn t mention was that by then he had six separate police witnesses who d been at the shopping mall on that day in 1981 and had since spoken up most had seen adam all had seen a much more likely suspect jeffrey dahmer a microfilmed miami police report the author found and had previously shown to the walsh detectives proved that dahmer was then living just a few miles from the sears dahmer s boss told the author that the prompt for the report was that dahmer had told him he d just found the body of a homeless man behind the store yes bad luck jeffrey dahmer found a dead body 1981 was 10 years before milwaukee police found severed heads in dahmer s refrigerator and arrested him as a serial killer he said he d killed his first victim in 1978 even worse it turned out that the identification of the child as adam had been slapdash and suspect the walsh parents weren t present for it john walsh wrote years later that he d never viewed even photographs of the remains a family friend had been present for the id and walsh wrote that his first impression had been that it wasn t adam because the remains were only a severed head there were no fingerprints and forensic dna was still years away the pathologist making the identification did it strictly by teeth but he admitted he wasn t a dental expert dental x rays when available are a standard for comparison but he didn t have them he also had a forensic dentist available but never consulted him a medical examiner in another regional office performed the autopsy but he also never consulted a forensic dentist worse again that medical examiner never wrote and submitted an autopsy report as state laws and guidelines require that perhaps never happens had police ever charged any live defendant with murder in this case prosecutors in court would

have been handcuffed to prove that the dead child was adam the case likely then would have ended why all the misdirection did dahmer take adam is adam even dead is that someone else s child could adam be alive fifteen years of continuing research author s story appeared in 2007 on abc primetime and in 2010 on a sunday front page of the miami herald i never and to my knowledge no one in the office prepared a report on the head of adam walsh 2010 email from dr ronald k wright in 1981 the chief broward county medical examiner who performed the autopsy on the remains of the child previously identified as adam walsh when asked if he had a personal copy of adam walsh s autopsy report that neither the medical examiner s office nor the police had there s no way in hell a florida forensic dentist viewing the teeth in both the last picture of adam walsh and the remains of the child identified as him responding to the question of whether they could be the same child other forensic dentists shown the same material agreed
