## **Conceptual Approach to the CSAT (Civil Services Aptitude Test) Paper II**

2022-08-03

this book contains model answers to the questions and case studies asked in general studies  
iv gs 4 civil services mains paper from 2013 to 2019 with detailed information on the  
background framework of the question likely answer it is important to note that as a subject in

civil services examination gs 4 is the only subject where we have comparatively well defined syllabus and paper pattern because of this each individual can score good marks in the paper with lesser efforts as compared to other general studies papers i e if you dedicate 15 20 days to this subject you will not just learn about the complete subject but you can score much more as compared to other general studies paper as they require much more time because of their dynamic nature if we consider the previous year question papers of general studies iv the questions were divided into two parts as 1 theory based questions based on the theoretical aspects of the ethics and 2 case studies based on the actual or probable life situations the answers are divided into two portions with first one detailing about the framework of the answer or background of the question giving details about the basic idea of the question or the form of case study the second part is the model answer giving wider inputs on the question we hope that wider considerations will help the reader in understanding the question

and how to structure the answer based on the question

aptitude questions aim to find the long term warriors in a professional setting unafraid of the challenges near and long term can bring brave and bold enough to withstand the unforeseen

storm this is in part due to the timelessness of aptitude questions the independence from the immediate unlike most subjective questions aptitude questions are not the sort of questions to rote learn and soon forget aptitude questions aim to find the critical thinking skills of the aspirant and if they can think fast enough this is becoming more important in the age of automation where clerical jobs take a backseat and more particularly in start up companies where time is one of the most expensive commodities aptitude questions are indeed hard to prepare for compared to many subjective tests and tests in schools or universities especially if they are for competitive professional posts there can be innumerable questions from the big bucket of topics aptitude questions come from ranging from mathematics to verbal ability spatial thinking and sometimes even basic grammar practice plays a role here as well as familiarity with the basic concepts such as the mathematical formulae we learn in middle school many of the aptitude questions have a straightforward way to solve them but in the

higher levels many questions have an alternate more effective way of solving them these questions put in the sharp corporate way are what can be used to separate the grain from the chaff understanding what motivates the creation of such questions and where can the more effective ways be utilized can play a big role for the aspirant to advance in their professional life or for starting in higher tier in this book we uncover questions which can be solved in much more effective way as these trickier questions are becoming more and more common in professional settings the focus here is strictly on the quality of the questions on avoiding the complicated processes and finding an alternate more effective way the questions mostly from high level professional entrance tests have been chosen so that the effective methods are applicable to wide variety of alternative questions it is recommended to use practice books for aptitude questions and books on basic formulae alongside while using this book best of luck
