a nostalgic look at how austin bounced back after wwii and how despite the severe materials shortage it managed to develop the largest range of vehicles produced by any auto maker in post war britain back cover

American Machinist & Automated Manufacturing 2007-06-30

together with his colleagues at citroën andre lefebvre created the traction avant 1934 the tub 1939 citroën s first front wheel drive utility van that was succeeded by the h and hy vans 1947 the deux chevaux 1948 and last but not least the ds 1955 from 1923 to 1931 lefebvre also designed several highly original and outstanding competition cars and record breaking automobiles for voisin he even drove some these cars in races and record attempts it is obvious that during his 16 years with gabriel voisin he was very much influenced by the ideas of this illustrious aviation pioneer and car manufacturer the experience gained during that period gave him the self confidence to persuade his successive bosses at citroën that his unorthodox approach to automobile design was what the company needed first he convinced andré citroën later pierre michelin then pierre jules boulanger and finally robert puisieux and pierre bercot his oeuvre for citroën alone earns him a place of honour among the great automobile designers of the past century the fact that most present day cars still carry the dna of his design philosophy makes him stand out above other automotive pioneers and innovators that is why it is amazing that so little is known about this fascinating and brilliant engineer this book was written in order to remedy that and to pay tribute to andré lefebvre the passionate pioneer who left car enthusiasts around

the world such an important heritage

Resources in Education 2001

there has been nothing published outside of russia concerning the activities of its motor industry by 1937 the soviets had become the largest producers of motor vehicles in europe albeit with the help of henry ford the author decided to concentrate on the work of the pioneers in czarist russia for their efforts were more diverse than those of their counterparts in the soviet era however one soviet motor car which was an indigenous product has been included to illustrate how the industry might have evolved if henry ford had not been approached this is a comprehensive overview of all facets of vehicle production from the early days to the final demise of the soviet union all the manufacturers of motor vehicles certain accessories military machines and even aero engines are recorded in this unique book

The Moto Guzzi Sport & Le Mans Bible 1951
