## **Wikipedia Reader's Guide**

2008-05-05

wikipedia reader s guide the missing manual gives you the essential tools for getting the most out of wikipedia as a supplement to wikipedia the missing manual this handbook provides a basic road map to the largest online collaborative encyclopedia you ll learn the best ways to search wikipedia for the information you need how to navigate the encyclopedia by category and what to do if you spot an error in an article

## **Wikipedia Reader's Guide: The Missing Manual**

2008-05-05

you don t have to understand how to edit wikipedia in order to find the information you need and join the conversation this booklet gives you just what you need to know in friendly concise form so you can research any subject without getting lost in wikipedia s labyrinth with it you ll be able to unlock the mysteries of the many links on every wikipedia page and the sometimes cryptic buzzwords you see on talk pages and while this booklet focuses on wikipedia readers it also includes a tutorial for first time editors and explains wikipedia s editing tools you ll find valuable advice on how to alert editors to flaws in articles and how to contribute to talk pages without getting caught up in pointless disputes the author of wikipedia reader s guide the missing manual has edited more than 15 000 wikipedia articles and has written a comprehensive index to wikipedia for editors to use in their daily work his knowledge of wikipedia is limitless and his passion is contagious with this guide you ll catch on quickly

## **Wikipedia**

2008

provides information on editing creating and maintaining wikipedia articles collaborating with other editors formatting and illustrating articles and building a stronger encyclopedia

## **How Wikipedia Works**

2008

provides information on using and contributing to wikipedia covering such topics as evaluating the reliability of articles editing existing articles adding new articles communicating with other users and resolving content disputes

## **Wikipedia**

2004

opbygget efter princippet om open source alle kan skrive nye opslagsord og forklaringer ind i leksikonet der således hele tiden er under udvikling findes på mange sprog bl a

# Wikipedia: The Missing Manual

2008-01-25

want to be part of the largest group writing project in human history learn how to contribute to wikipedia the user generated online reference for the 21st century considered more popular than ebay microsoft com and amazon com wikipedia servers respond to approximately 30 000 requests per second or about 2 5 billion per day it s become the first point of reference for people the world over who need a fact fast if you want to jump on board and add to the content wikipedia the missing manual is your first class ticket wikipedia has more than 9 million entries in 250 languages over 2 million articles in the english language alone each one is written and edited by an ever changing cast of volunteer editors you can be one of them with the tips in this book you ll quickly learn how to get more out of and put more into this valuable online resource wikipedia the missing manual gives you practical advice on creating articles and collaborating with fellow editors improving existing articles and working with the wikipedia community to review new articles mediate disputes and maintain the site up to the challenge this one of a kind book includes basic editing techniques including the right and wrong ways to edit pinpoint advice about which types of articles do and do not belong on wikipedia ways to learn from other editors and communicate with them via the site s talk pages tricks for using templates and timesaving automated editing tools recommended procedures for fighting spam and vandalism guidance on adding citations links and images to your articles wikipedia depends on people just like you to help the site grow and maintain the highest quality with wikipedia the missing manual you get all the tools you need to be part of the crew
