aqueous solution??? ??? ??? weblio???? Apr 07 2024 ??? an aqueous solution is a solution in which the solvent is water it is usually shown in chemical equations by appending aq to the relevant formula the word aqueous means pertaining to related to similar to or dissolved in water

aqueous solution wikipedia Mar 06 2024 [??] an aqueous solution is a solution in which the solvent is water it is mostly shown in chemical equations by appending aq to the relevant chemical formula for example a solution of table salt also known as sodium chloride nacl in water would be represented as na aq cl aq

what is an aqueous solution definition and examples Feb 05 2024 000 202108050 an aqueous solution is a chemical solution in which the solvent is water the solutes are dissolved molecules and ions that are surrounded by water molecules an aqueous solution is shown by writing aq after a chemical formula for example an aqueous solution of salt nacl in water is nacl aq or na aq
