Antiquarian Bookman 1929

sprawl is an unsustainable pattern of growth that threatens to undermine the health of communities globally it has been a dominant mid to late twentieth century growth pattern in developed countries and in the twenty first century has shown widespread signs of proliferation in india china and other growing countries the world health organization cites sprawl for its serious adverse public health consequences for humans and ecological habitats the many adverse impacts of sprawl on the health of individuals communities and biological

ecosystems are well documented architects have been rightly criticized for failing to grasp the aesthetic and functional challenge to create buildings and places that mitigate sprawl while simultaneously promoting healthier active lifestyles in neighbourhoods and communities sprawling cities and our endangered public health examines the past and present role of architecture in relation to the public health consequences of unmitigated sprawl and the ways in which it threatens our future topics examined include the role of twentieth century theories of architecture and urbanism and their public health ramifications examples of current unsustainable practices design considerations for the creation of health promoting architecture and landscape urbanism a critique of recent case studies of sustainable alternatives to unchecked sprawl and prognostications for the future architects public health professionals landscape architects town planners and a broad range of policy specialists will be able to apply the methods and tools presented here to counter unmitigated sprawl and to create architecture that promotes active healthier lifestyles stephen verderber is an internationally respected evidence based researcher practitioner educator in the emerging interdisciplinary field of architecture health and society this his latest book on the interactions between our buildings our cities and our health is an invaluable reference source for everyone concerned with sustainable architecture and landscape urbanism

Case-Smith's Occupational Therapy for Children and Adolescents - E-Book 1984

a finalist for the national book critics circle award this memoir of one woman s later in life career change is a smart funny and compelling case for going after your heart s desires no matter your age essence following her retirement from princeton university celebrated historian dr nell irvin painter surprised everyone in her life by returning to school in her sixties to earn a bfa and mfa in painting in old in art school she travels from her beloved newark to the prestigious rhode island school of design finds meaning in the artists she loves even as she comes to understand how they may be undervalued and struggles with the unstable balance between the pursuit of art and the inevitable sometimes painful demands of a life fully lived how are women and artists seen and judged by their age looks and race what does it mean when someone says you will never be an artist who defines what an artist is and all that goes with such an identity and how are these ideas tied to our shared conceptions of beauty value and difference bringing to bear incisive insights from two careers painter weaves a frank funny and often surprising tale of her move from academia to art in this glorious achievement bighearted and critical insightful and entertaining this book is a cup of courage for everyone who wants to change their lives tayari jones author of an american marriage
