then it is definitely not good of all the things god made as we read in the account of creation in genesis chapters 1 and 2 there was only one thing he declared not good and that is man s loneliness what then is loneliness and why is it so bad that god said it is not good you are probably wondering a singer once sang this line it doesn t mean i m lonely when i m alone it s just me myself and i how true contrary to what many assume loneliness is not really the state of being alone or without the company of other people it is worse loneliness is a psychological state of feeling left out or isolated and this can happen even in the midst of others many are married and living with their spouses yet feel lonely there are some who live in a large house with a large family yet they feel lonely while there are others who work in organizations with tens or hundreds of staff yet feel left out they feel isolated that is loneliness these are the sad realities of our day indeed as god declared it is not good for a man that is a person to be alone lonely now what makes loneliness so bad that god declared it not good the quest to find answers to this question led to the birth of this book let me give you a hint why loneliness is not good as god announced first loneliness is associated with many risks including health risks like depression have you noticed that you tend to think wild negative thoughts when you are lonely that s only a tip of the pains and dangers of loneliness also you must have heard the saying that there is safety in numbers isn t it it s true being lonely can expose you to dangers as predators tend to target people who are isolated if you for instance want a particular branch of a tree to die it s simple just cut it off from the tree and let it be on its own it s only a matter of time it ll die off naturally the truth is the pains of loneliness are too deep and too serious for you to toy with it you will discover more as you read further but loneliness is not all bad indeed being alone and isolated has its benefits oh yes it has its good side too great ideas are birthed in the place of solitude the inspiration for many of the greatest songs groundbreaking inventions revolutionary ideas and revelations which have positively altered the course of human history came in moments of isolation obviously loneliness has its benefits however you need to understand that these benefits can only be harnessed when the time spent in solitude is properly channeled in your

this short story starts with a monolog from the main character describing his own view of life

as he has lived it he is convinced he does not need nor want any connection to or even have any desire to be associated with humanity in general or at large that is a tough thing to do as the world is filled with people so he finds solace in getting away for short periods of time in an isolated environment where he can live his desire to be alone he finds though that even in a far removed location it is never quite far enough there will always be some who find him and whether he likes it or not draws him into there conflicts this time it will force him to deal with the ramifications of their intrusion it will cause him to disregard his own wants and needs for his self appointed obligation of helping to return the intruding couple back to civilization it is strange that a man who wants nothing to do with people is thrust into such a predicament they do not make his mission to help them easy at all there is a constant threat to his life and theirs the whole way back
